

*Van Zyverden's*  
**LILIES NIGHT FLYER**

Lilies are one of the truly great garden plants, and they are beloved by gardeners everywhere. Their beauty, diversity, extended season of bloom, graceful stature and overall reliable disposition reflect the fruits of hundreds of years of selective breeding. In Chinese, the word 'Lily' means 'forever in love'. The Lilium family is so large, varied, and complex that it is challenging to describe them in short. Lilies are deer and critter resistant. Plant them just about anywhere - borders, beds, cutting gardens, perennial gardens, pots and containers.

*Good full sun perennial choice*

*Unique, black-red color*

*Long lasting  
and heat resistant*

**About This Variety:** What sets Lilium Night Flyer apart from all other lilies is its red-black color. There are not many flowers that are this dark. In fact it is so dark, that one does not immediately notice the speckles on its blooms. The more seasons this bulb has been in the ground the more blooms it will produce, sometimes up to a dozen per stem. It is heat resistant and lasts a long time in the garden. Often sells out!

**Growing Instructions:** Plant in well-drained soil where they will receive 6-8 hours of sun a day. They are winter hardy and considered a strong perennial that can be left in the ground and will re-bloom year after year if the conditions are right. Lilies perform best when mulched.

**Care Tip:** Lilies prefer cool soil, which argues for shade at their feet from low growing companions. When cutting the flowers for bouquets, remove no more than 1/3 of the stem so sufficient leaves remain to renew the bulb for the coming year.

**Exposure:** Full sun to partial shade

**Height:** Grows 36-48" tall

**Spacing:** Plant 6-8" apart, 6-8" deep

**Hardy in:** USDA zones 3-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
