Installing the Light

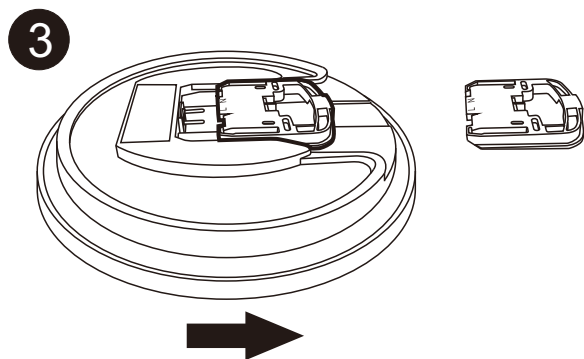

WARNING: To avoid possible electrical shock, turn the electricity off at the main fuse box before wiring. If you feel you do not have enough electrical wiring knowledge or experience, contact a licensed electrician.

- Remove the mounting bracket on the lighting fixture as shown.

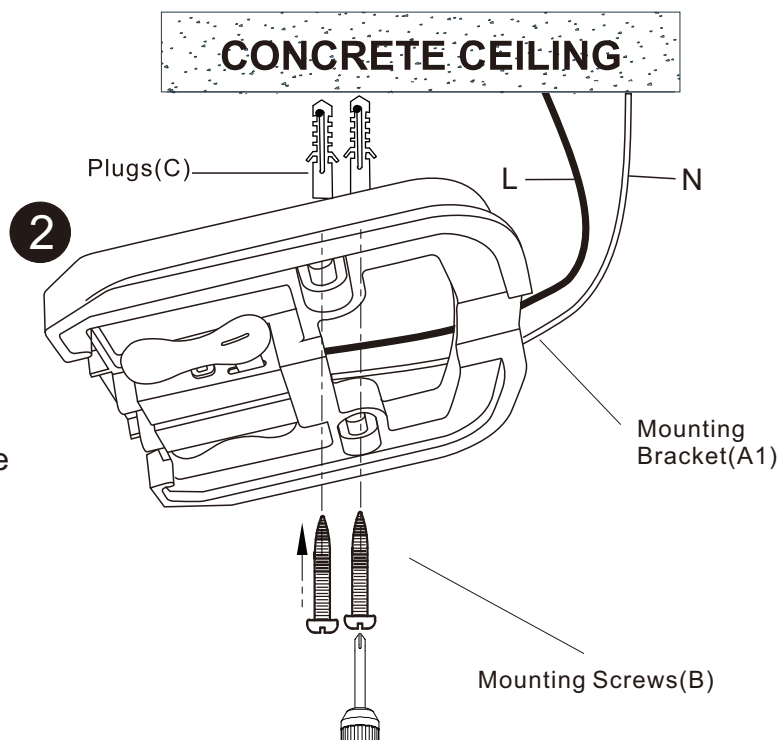

- Install the light fixture directly onto the mounting bracket.

NOTE: If it is a wooden ceiling, there is no need to drill holes and plugs, and it can be installed directly using mounting screws (B).

- Follow the text prompts on the Mounting screws (B) to connect to the home line.
- Use the Mounting Bracket (A1) as a guide, mark the spots where the 2 Plugs (C) will be drilled.
- Remove the Mounting Bracket (A1). Drill 2 holes for 6MM diameter and insert 2 Plugs (C) into the concrete ceiling, install the mounting bracket and secure with Flat Mounting screws (B)

Tips

- For daily cleaning, you can use a damp cloth to wipe the surface without using corrosive chemicals.
- Electrical products must be discarded in an environmentally friendly area.
