FOR SHOWER DOOR

INSTALLATION INSTRUCTIONS

Shower Door

SAFETY INFORMATION

CAUTION

Please carefully read the following important safety information before handling or installing this shower door. There is a risk of serious injury while handling this product.

To minimize these risks, please note:

Always wear safety glasses and gloves while handling.

Always follow the installation instructions. Inspect glass for damage before installation.

Extreme caution should be taken while handling the glass during installation as the tempered glass may shatter if in contact with a hard surface.

Do not cut or modify the tempered glass as it will shatter if cut.

Carefully remove product from packaging and keep packaging until installation is complete.

Inspect all parts for damage or missing; If there is damage or part missing to the unit prior to installation, please contact customer service at the number provided in this guide.

Cover the drain with tape to prevent the loss of small parts.

The shower base and finished walls should be installed before beginning the shower door installation.

During the installation, protect the shower floor with a drop cloth to avoid damage. This product should be installed by two people who are familiar with construction requirements. Professional installation is recommended!

Keep this installation manual for future reference.

NOTE: Two people should perform this installation.

ESSENTIAL ACCESSORIES LIST

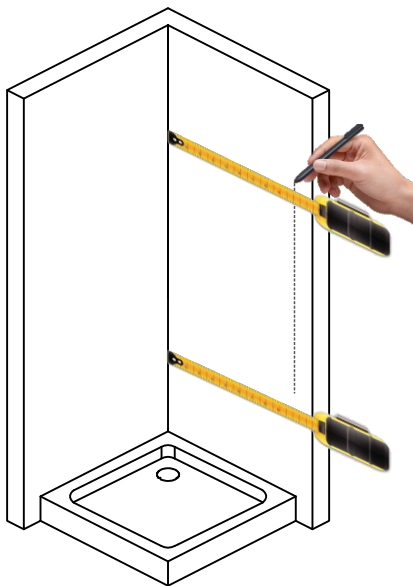

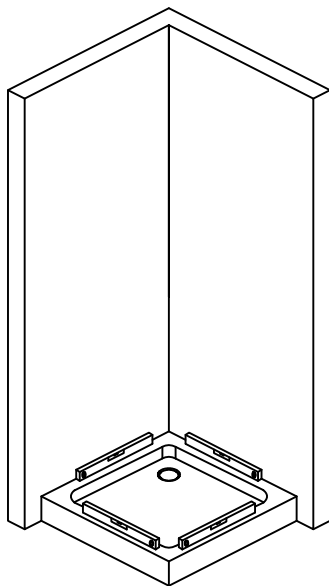

NOTE: Inspect all parts for missing prior to installation! Contact us for any part missing.

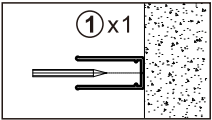

Step1:

Use a level to make sure the base is flat.

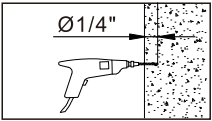

Use a tape measure to make sure of the wall jamb position.

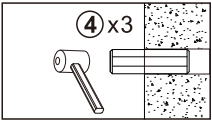

Step2:Place the wall jamb on the wall and calibrate it with a level.

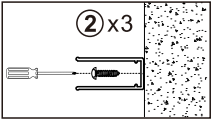

Use a pencil to mark the locations of the three pre-drilled holes and outline the wall jamb (①x1).

Drill the holes to the wall per the pre-drilled position using Ø1/4" drill bit.

Use a hammer to insert the wall anchor (④x3).into the drilled hole.

Attach wall jamb (①x1)to the wall using the ST4x30 tapping screw (②x3).

WARM TIPS

The shower door is attached with explosion proof film, please use it in normal temperature.

DO NOT :

Acidic cleaners

Gasoline

Alcohol

Fire

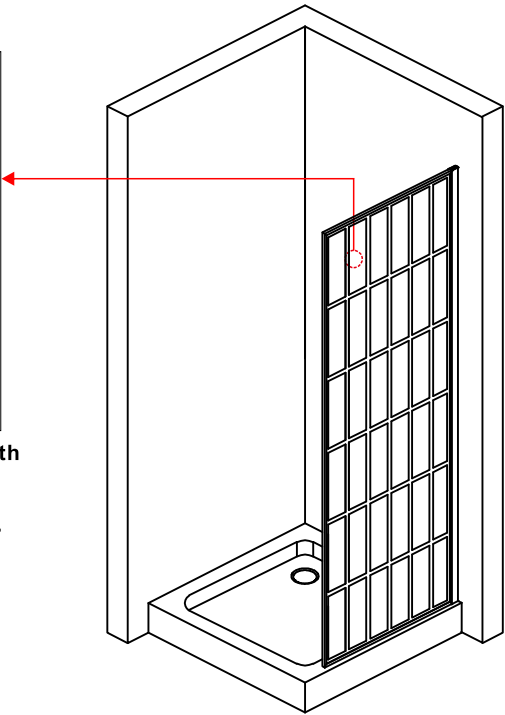

Hard sharp object

1. Take care to protect the film to prevent scratches during installation.

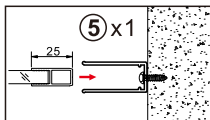

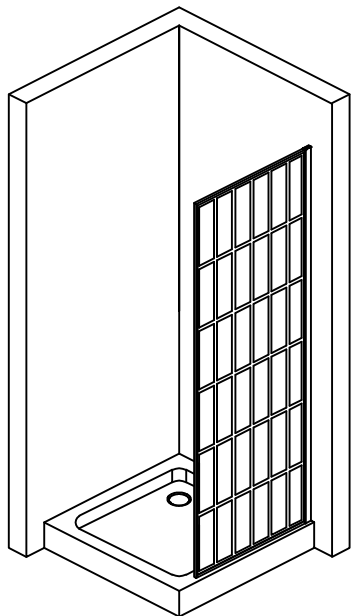

2. Use soft cloth and soap water to clean the shower door.

Attention

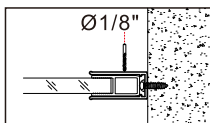

NOTE:Our shower door is affixed with explosion-proof film. Please install the side with the explosion-proof film prompt inside the shower room.

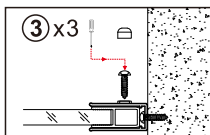

Step3: Install the shower door.

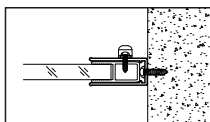

Insert the shower door (5x1).

Use a Ø1/8" drill bit to drill three holes on the inside of the wall jamb.

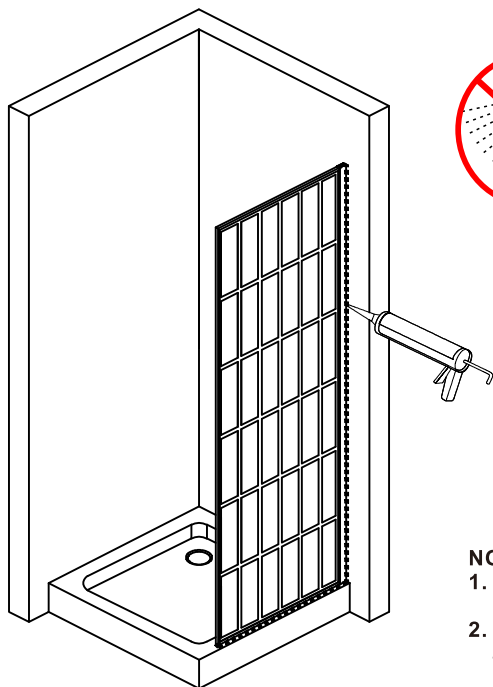

Drive ST4x12 (3x3) tapping screws into the drilled holes in sequence.

Secure the decorative cover with screws.

Step 4 : Apply silicone sealant on the seams between the shower door and the shower base/ threshold, and between the wall and the shower door.

NOTE:

1. Before using silicone, the surface needs to be clean and free of debris.
2. Do not use the shower door within 24 hours after installation.

SHOWER DOOR MAINTENANCE MANUAL

Cleaning:

1. When cleaning the frame, glass and hardware accessories of the shower door, please use a soft cloth. If there is slight dirt, please use a soft cloth or sponge dipped in "neutral detergent" for cleaning. After removing the stubborn dirt, please rinse with plenty of water to prevent the cleaning agent from remaining on the surface of the shower door and causing corrosion damage.
2. When using the special detergent and cleaning agent for bathroom, please be sure to use it correctly according to the precautions described in the detergent. Incorrect use will cause the product to have some bad conditions, such as paint peeling, color fading, rust, tarnishing, etc.
3. Do not use the following items for cleaning: acid, alkaline solvents, medicines (such as hydrochloric acid), solvents containing bleach, acetone diluent, detergent powder, toilet cleaner, etc, otherwise the product will be damaged. There are some bad conditions, such as paint peeling, discoloration, rust, tarnishing, etc.
4. The cleaning items that can be used for the product are: soft cloth, toothbrush, neutral detergent, a mixture of diluted vinegar and salt. Note: any cleaning agent will have a certain impact on the surface of the product, so use caution. Rinse with clean water in time to prevent damage to the surface caused by the residual detergent.

How to use and maintain the pulley of the shower door:

1. Avoid hitting the movable door with force, so as not to cause the movable door to fall off.
2. Pay attention to regularly clean the slide rails, pulleys and sliders, and add lubricant (lubricating oil or lubricating wax).
3. Regularly adjust the fixing screws of the pulley to ensure the effective bearing and good sliding of the pulley on the movable door.

Maintenance of tempered glass:

1. Do not hit or hit the glass surface with sharp objects to avoid damage.
2. Do not wipe the glass surface with rough objects to avoid scratches.
3. After using for a period of time, the glass will remain dirt, remove the dirt on the glass. you can use a mixture of cool and salt to wash with a toothbrush, you can remove the stains. Pay attention to rinse with clean water in time after use.
