

Measure Posts Prior To Purchasing

Our 4x4 Post Shields Fit A 3.5" x 3.5" Standard Post

4x4 Post Shields Measurement Guide

4x4 Post Shields are designed to fit the standard 4x4 labeled post sold at lumber yards, big box stores, and home improvement stores across the country.

The standard 4x4 labeled post is not actually 4 inches x 4 inches, they are 3.5 inches x 3.5 inches. There are a few exceptions so please measure your posts to verify its size before purchase.

New treated posts can be wet and swollen from the treatment process, but will soon dry out and shrink to the 3.5" x 3.5" standard.

Our 6x6 Post Shields Fit A 5.5" x 5.5" Standard Post

6x6 Post Shields Measurement Guide

6x6 Post Shields are designed to fit the standard 6x6 labeled post sold at lumber yards, big box stores, and home improvement stores across the country.

The standard 6x6 labeled post is not actually 6 inches x 6 inches, they are 5.5 inches x 5.5 inches. There are a few exceptions so please measure your posts to verify its size before purchase.

New treated posts can be wet and swollen from the treatment process, but will soon dry out and shrink to the 5.5" x 5.5" standard.
