# Limited Warranty Information

Thank you for choosing an Alpine product! We aim to please with our wide range of products including Fountains, Birdbaths, Statuary, and Pond Supplies & More. All of our products are constructed from the highest quality materials. In the event that we have not achieved our usual standard of excellence, we will repair or replace, at our discretion within the warranty period. A valid proof of purchase with the purchase date clearly indicated must be provided. Photos of defective merchandise will also be required to help distinguish the actual cause of the defect. Please read below for a detailed description of warranty coverage.

## • Water Damage

Alpine products are not manufactured to withstand extreme temperatures. Improper storage that allows water to freeze within a product may cause damage, is considered negligence and will not be covered under this warranty. The use of "hard water" and/or caustic cleaners can affect the painted or other finishes. Failure to keep the unit clean and use of such additives/cleaners will also void the warranty. Please note: for fountains, it is normal for some splashing to occur and protecting the immediate surfaces is not the responsibility of Alpine Corporation

## • Paint & Color (Retention and/or Loss)

The use of water will cause natural erosion to the color. This area can be touched up using standard paint. The paint is designed protect the entire finish against breakdown of color. As with any product, all finishes with time will gradually fade and discolor. The warranty will only cover against severe or complete fading within the first year from date of purchase with the above exclusion.

## • Procedure/Service

Should a warranty/claim be needed, you should contact the retailer from whom you purchased the product. If that is not an option, you can contact Alpine Corporation at [www.alpine4u.com](http://www.alpine4u.com). When contacting Alpine Corporation, you must be prepared to show proof of purchase, provide photographs and any other information needed to validate your claim. This may be necessary to distinguish between a partial or complete replacement of a defective product. The warranty does not cover any items with multiple parts; the warranty will ONLY cover the individual component of the unit/item that may be defective. Replacement parts can be made available to a consumer through the original selling party, or an approved parts retailer. If this is not an option, contact our customer service department. Item is covered under one year limited warranty from the date of purchase. When requesting replacement parts due to a warranty claim after 30 days of purchase, credit card information will be requested for shipping charges.

## • Not Covered Under Warranty

The limited warranty will NOT cover cases of damages due to

1. Damages caused in Transit
2. Inadequate care and/or neglect
3. Environmental and/or natural elements
4. Immersion in water, unless specified
5. Improper Installation/Storage and/or Maintenance

*This warranty is void if the product has been damaged by accident, misuse, negligence, improper installation and/or modifications have occurred. This includes any and/or all defects arising out of freezing water damage, hard water damage, failure to keep the unit clean and free of harmful additives such as bleach, chlorine, etc.... which affects the paint and/or parts. This warranty also does not cover any additional charges or installation, removal, disposal and/or shipping costs or consequential damage associated with any warranty claim.*

## Assembling & Using Your Product

Unpack all components carefully. Please check to ensure all parts have been removed from the packaging. There some splashing may occur.

## Components:

- 1 Rake
- 2 Tree
- 3 Stone Tree Base
- 4 Sand & Stone Pack
- 5 Buddha Statue
- 6 Fountain Base
- 7 Submersible Pump

## Assembling:

- A Place the fountain base on a clean and leveled surface. Gently pour water into the left opening of the fountain base, make sure water doesn't overflow.
  - B Connect the vinyl tubing and LED light cord from underneath the Buddha statue into the pump **and** adjust the flow control to the lowest setting to avoid splashing until the fountain is completely assembled.
  - C Place the pump into the left reservoir while covering it with the Buddha statue. Make sure to feed the pump power cord out to the back of the Buddha statue.
  - D Open the bag of sand and spread it throughout the container. Place the stones so they become the focal point of the design. Use the rake to enhance the design with creative sand patterns. Creating a Zen Garden is a stress relieving activity bringing a sense of stillness and calm where the mind can be opened and imagination freed. The designs and patterns you create reflect your inner feelings and can be the beginning of a lifelong adventure of seeing things in a new way.
- Place the stone tree base on top of the right fountain opening. Then insert the tree into the top of the stone tree base.
- E Connect the pump power cord to the transformer and plug it into your local power supply & make sure that there is no water around the plug & always keep the power source in a dry place.
    - NOTE: We recommend that you use distilled water to prevent scale build-up. The first time you operate the pump it can take up to 5 minutes for the air to be completely expelled and water begins to flow properly

## Trouble Shooting & Caution

If you have any questions and/or problems, please contact the retail store you purchased this fountain.

- **If your pump fails to run**
  - Check the circuit breaker or try a different outlet to make sure the pump is receiving electrical power.
  - Check the pump discharge and tubing for any kinks and/or obstructions
  - Any buildup obstructing the water flow can be flushed with a garden hose
  - Check the rotor by removing the front cover & plate to access the impellor area. Turn the rotor and make sure that the rotor is not jammed or broken
- **If your pump "spews"**
  - Check the water level to make sure the pump is completely submerged and they're if enough water in the basin to operate your fountain. Not having enough water will cause your pump to spew
- **If your pump is making abnormal loud noises**
  - Disconnect the pump from the electrical power supply and remove the front cover & plate
  - **Carefully grip the impellor and gently pull the impellor/rotor assembly out of the pump housing**
  - **Rinse the impellor/rotor assembly and clean the cavity with clean water. If breakage or damage is found, contact your local retailer for parts**

- **Caution**
  - **Always unplug the pump from the electrical outlet before cleaning & handling**
  - **Uses with clean water only, do not place the fountain and/or parts in any other liquid.**
  - **Periodically change water & clean the pump to keep free from micro-organisms**
  - **Disconnect and store the unit in a dry place if not in use for an extended period of time**
  - **Do not operate with water above 90°F or 30°C**
  - **Do not lift, carry or pull the pump by the power cord**
  - **Do not exceed the maximum voltage & wattage on transformer**
  - **NEVER LET THE PUMP RUN DRY**
