

A COMPLETE LINE OF PAINTS
FOR MARINE EXPOSURES

Marine Enamel | Camouflage Paint |
Clear Coats | Primers

Duralux Marine Coatings are ideal for a wide variety of applications

Originally developed for commercial or pleasure boats, the use of Duralux coatings has expanded to include most on shore and off shore applications where marine grade protection from harsh exposures is required.

Duralux is available in a variety of colors to satisfy the most discriminating boat owner's eye. From Enamels to Spar Varnish, Duralux Marine Coatings offer a complete line of high performance and competitively priced products that are regarded as the industry standard.

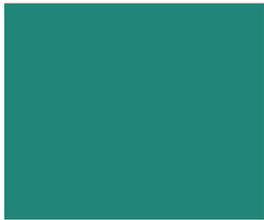

DURALUX

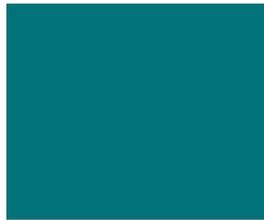

Marine Enamels

Duralux Urethane-Alkyd Marine Enamel is a single package topside enamel for use on primed steel and metal, wood, aluminum, or fiberglass. It is designed for use on commercial or pleasure boats, as well as on & offshore oil rigs, bridges, tanks, and other structural objects.

Duralux Marine Enamel is salt water resistant, withstands repeated washings, resists oil and gasoline, and holds up to the discoloration effects of harbor gases.
