TOTAL SOLUTIONS™

LIGHTEST CORDLESS PRO-GRADE SOLUTION FOR EXPANDING 1-1/2 IN. PEX PIPE**

DCE410P1 20V MAX* XR® 1-1/2 IN. PEX EXPANDER

The 20V MAX* XR® 1-1/2" PEX Expander is the lightest cordless pro-grade solution for expanding 1-1/4" and 1-1/2" PEX pipe**. DCE410 can expand 3/8" - 1-1/2" expansion-type PEX, including Uponor® ProPEX® tubing, and provides up to 20% faster speed of expansion than the Milwaukee® 2632 M18 PEX Expander†. This kit includes 1", 1-1/4", and 1-1/2" expansion heads, and is compatible with the existing DEWALT 3/8" - 1" expansion heads (sold separately). The tool features a long, ergonomically designed body with upper and lower grip locations to optimize pipe expansions in overhead and body-height positions. Achieve even expansion surfaces with the auto-rotating head mechanism. Light up workspaces with the onboard LED and store the tool using its side-mounted hang hook. Experience significant runtime from a brushless motor that allows you to work all day on one battery††. Add Bluetooth® tracking capabilities to this tool by pairing a Tool Connect™ Chip DCE042 (sold separately), via the CHIP-READY™ pocket on the foot of the tool.

* Maximum initial battery voltage (measured without a workload) is 20 volts. Nominal voltage is 18.

** Bare tool vs. Milwaukee® 2632 M18 Expansion Tool and 2932 M18 2" Expander Kit. Milwaukee® is a registered trademark of Milwaukee Electric Tool Corp., which has not endorsed or approved this comparison.

† Using DCB205 5Ah Battery on 1.5" PEX-A Pipe vs. Milwaukee® 2632 M18 PEX Expander with 48-11-1850 XC5.0 Battery. Milwaukee® is a registered trademark of Milwaukee Electric Tool Corp., which has not endorsed or approved this comparison.

†† Per charge, using DCB205 battery making up to 81 1-1/2" expansions in PEX-A pipe; a daily workload of 55 expansions is based on a DEWALT end user survey.
