

BORA

Jobhorse

Why BORA Jobhorse?

- 1. FAST ASSEMBLY** - Economical and efficient, this sawhorse bracket lets you set up a sturdy work platform in minutes using just the brackets and 2x lumber.
- 2. HEAVY-DUTY CONSTRUCTION** - Made from thick steel plates, it supports up to 1,000 lbs, making it perfect for heavy-duty tasks
- 3. STABILITY ON ANY GROUND** - The sturdy steel foot plate prevents sinking into soft or uneven ground, ensuring work horse stability
- 4. PORTABLE & EFFICIENT** - Lightweight and compact, it's easy to transport and assemble, making it perfect for mobile professionals or on-the-go projects
- 5. HANDS-FREE LOCKING** - A foot-activated hinge lock secures the legs in place
- 6. VERSATILE USAGE** - Designed for pro contractors and DIYers, it works with 2x lumber to create a durable, adaptable work horse platform for various tasks.

The BORA Jobhorse Sawhorse Brackets are a fast, economical, and efficient sawhorse solution that sets up in minutes. Just add 2x lumber for a strong, 1,000 lb-capacity work platform, featuring a foot-activated hinge lock and steel foot plate for stability on any terrain. Constructed from thick, steel plate for long-lasting durability, it features angled teeth in the clamping head that bite securely into any 2x material, ensuring quick and easy setup
