

Compact Pro™ CPRB LED Round Bay

Designed and Optimized for the Contractor.

Part of the Compact Pro™ Family, the Compact Pro™ Round High Bay by Lithonia Lighting® features two patented elements; the tri-radial glare-control lens creates an even, brilliant light ideal for most lighting needs and the integrated flip hook provides simple and secure installation. And with a lightweight, compact, and simple design, the CPRB requires only one person to install, cutting down on labor costs and helping protect your budget.

Features and Benefits:

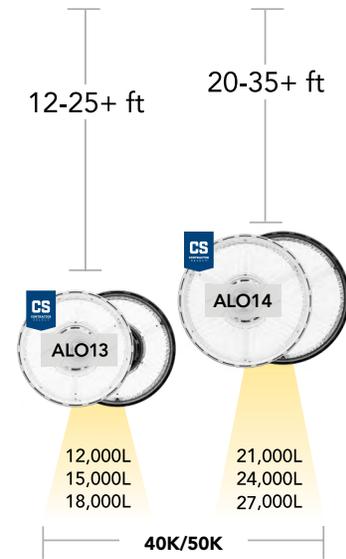

- Adjustable Lumens and Switchable Color Temperature
- Patented Tri-Radial Glare Control Lens
- Tool-less, field installable controls for easy control capabilities
- Patented Integrated Flip Hook for Easy Installation

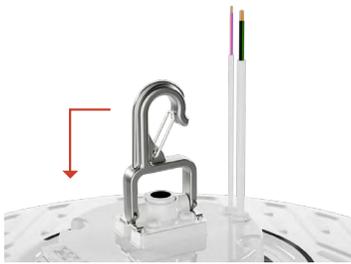

Optimized Applications

Switchable Lumen & Color Options

Ease of Installation

Save time with the Patented Integrated Flip Hook

Vertically locks in place

OR

Folds flat out of the way for other mounting options

Other Mounting Options:
