WARNING DECAL PLACEMENT

PROFORM and IFIT are registered trademarks of iFIT Inc. The Bluetooth® word mark and logos are registered trademarks of Bluetooth SIG, Inc. and are used under license. Google Maps is a trademark of Google LLC. Wi-Fi is a registered trademark of Wi-Fi Alliance. WPA and WPA2 are trademarks of Wi-Fi Alliance.

IMPORTANT PRECAUTIONS

WARNING: To reduce the risk of serious injury, read all important precautions and instructions in this manual and all warnings on the rower before using the rower. iFIT assumes no responsibility for personal injury or property damage sustained by or through the use of this product.

- It is the responsibility of the owner to ensure that all users of the rower are adequately informed of all precautions.
- Keep children under age 16 and pets away from the rower at all times.
- Consult your health care provider before beginning any exercise program. This is especially important for persons over age 35 or persons with pre-existing health problems.
- Consult your health care provider before beginning or continuing any exercise program during pregnancy. Use the rower only as authorized by your health care provider.
- 5. The rower is not intended for use by persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge, unless they are given supervision or instruction about use of the rower by someone responsible for their safety.
- Use the rower only as described in this manual.
- The rower is intended for home use only. Do not use the rower in a commercial, rental, or institutional setting.

- Keep the rower indoors, away from moisture and dust. Do not put the rower in a garage or covered patio or near water.
- Place the rower on a level surface, with a mat beneath it to protect the floor or carpet. Make sure that there is at least 2 ft. (0.6 m) of clearance around the rower.
- Inspect and properly tighten all parts each time the rower is used. Replace any worn parts immediately. Use only manufacturersupplied parts.
- 11. Wear appropriate clothes while exercising; do not wear loose clothes that could become caught on the rower. Always wear athletic shoes for foot protection.
- 12. The rower should not be used by persons weighing more than 250 lbs. (114 kg).
- 13. Always keep your back straight while using the rower; do not arch your back.
- Do not release the row bar while the strap is extended.
- 15. Over exercising may result in serious injury or death. If you feel faint, if you become short of breath, or if you experience pain while exercising, stop immediately and cool down.

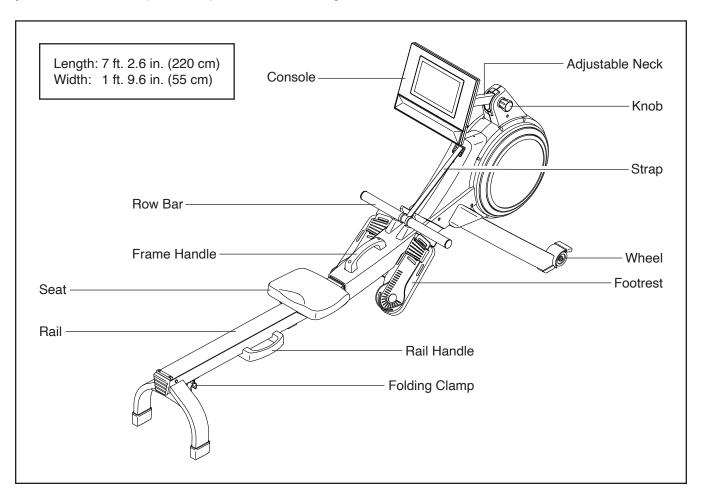

BEFORE YOU BEGIN

Thank you for selecting the new PROFORM® CARBON PRO10 rower. Rowing is an effective exercise for increasing cardiovascular fitness, building endurance, and toning the body. The CARBON PRO10 rower is designed to let you enjoy this effective exercise in the convenience and privacy of your home.

For your benefit, read this manual carefully before you use the rower. If you have questions after reading

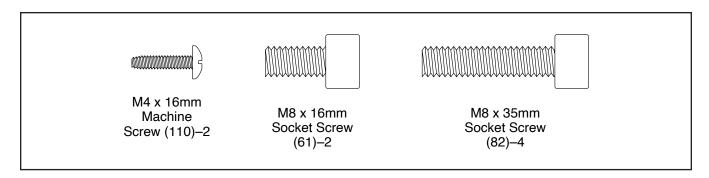

this manual, please see the front cover of this manual. To help us assist you, note the product model number and serial number before contacting us. The model number and the location of the serial number decal are shown on the front cover of this manual.

Before reading further, please review the drawing below and familiarize yourself with the labeled parts.

PART IDENTIFICATION CHART

Use the drawings below to identify the small parts needed for assembly. The number in parentheses below each drawing is the key number of the part, from the PART LIST near the end of this manual. The number following the key number is the quantity needed for assembly. **Note:** If a part is not in the hardware kit, check to see whethere it has been preassembled. Extra parts may be included.

ASSEMBLY

- · Assembly requires two persons.
- Place all parts in a cleared area and remove the packing materials. Do not dispose of the packing materials until you finish all assembly steps.
- Assembly requires the following tool(s):

one Phillips screwdriver

one adjustable wrench

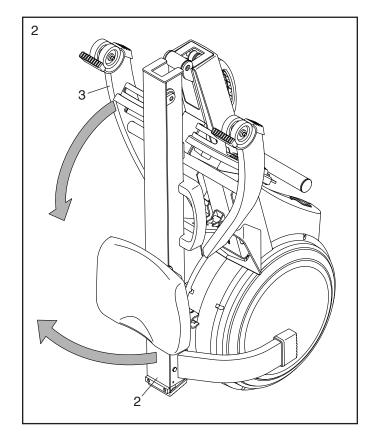

To avoid damaging parts, do not use power tools.

1. For assistance with assembly, scan the QR code at the right and watch the assembly video.

2. If there are shipping tubes (not shown) attached to the rower, remove and discard the shipping tubes and the hardware attaching them.

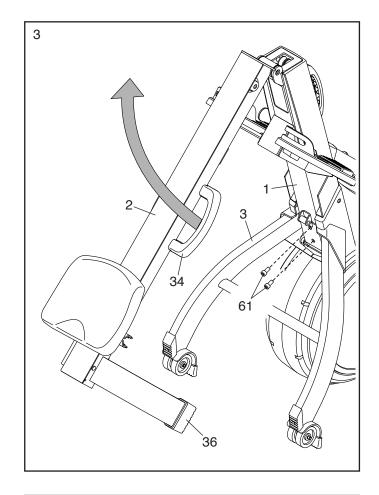

With the help of a second person, pull the Rail (2) outward and rotate the Stabilizer (3) downward (see the drawing in step 3).

3. Have a second person hold the Rail (2) during this step.

Secure the Stabilizer (3) to the Frame (1) with two M8 x 16mm Socket Screws (61).

Then, hold the Rail Handle (34) and pull the Rail (2) outward until the Rail is fully extended and the Rail Feet (36) are resting on the floor.

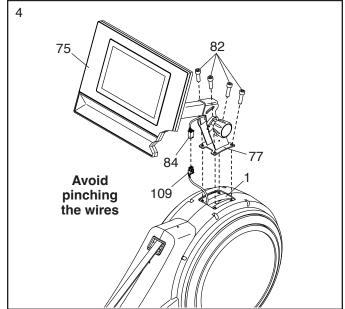

4. While a second person holds the Console (75) and the Upright (77) near the Frame (1), connect the Upright Wire (84) to the Main Wire (109).

IMPORTANT: The wire connectors should slide together easily and snap into place with an audible click. You must connect the wires properly for your rower to function properly.

Then, insert the excess wire into the Frame (1).

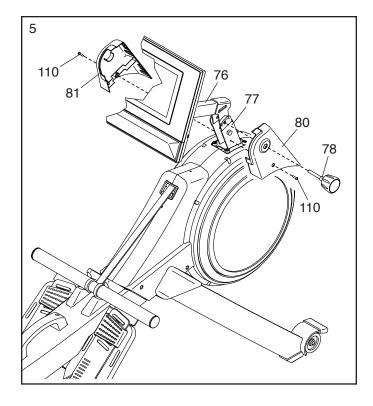

Avoid pinching the wires. Attach the Upright (77) to the Frame (1) with four M8 x 35mm Socket Screws (82); start all four Socket Screws, and then tighten them.

5. Hold the Neck (76), and loosen and remove the Knob (78).

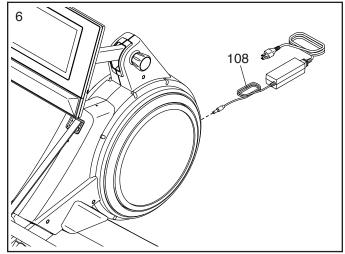

Next, identify the Right and Left Upright Covers (80, 81). Hold the Upright Covers together around the Upright (77), and attach them to the Upright with two M4 x 16mm Machine Screws (110).

Then, insert the Knob (78) into the Right Upright Cover (80) and tighten the Knob into the Upright (77).

6. Plug the Power Adapter (108) into the receptacle on the front of the rower.

Note: To plug the Power Adapter (108) into an outlet, see HOW TO PLUG IN THE POWER ADAPTER on page 9.

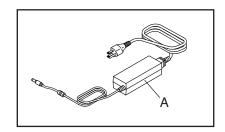

7. **Make sure that all parts are properly tightened.** Extra parts may be included. Place a mat beneath the rower to protect the floor.

HOW TO USE THE ROWER

HOW TO PLUG IN THE POWER ADAPTER

IMPORTANT: If the rower has been exposed to cold temperatures, allow it to warm to room temperature before you plug in the Power Adapter (A). If you do not do this, you may damage the console displays or other electronic components.

Plug the Power Adapter (A) into the receptacle on the front of the rower. Then, plug the Power Adapter into an appropriate outlet that is

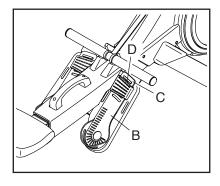

properly installed in accordance with all local codes and ordinances.

HOW TO ADJUST THE FOOT PADS

First, sit on the seat and place your feet in the Foot Pads (B).

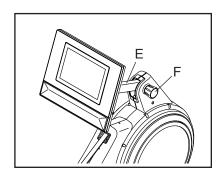

Next, press the Footrest Bracket (C) forward, slide the Foot Pad (B) to the desired position, and then release the Footrest Bracket so that the Tab (D) engages a slot in the Foot Pad. Then.

tighten the strap over your foot. Adjust the other foot pad in the same way. Make sure that both foot pads are in the same position.

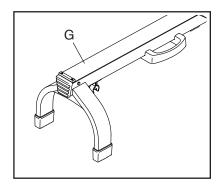

HOW TO ADJUST THE CONSOLE VIEWING ANGLE

To adjust the console to the desired viewing angle, hold the Neck (E), loosen the Knob (F), raise or lower the Neck, and then tighten the Knob; do not hold or pull on the console.

HOW TO MOVE THE ROWER IN THE UNFOLDED POSITION

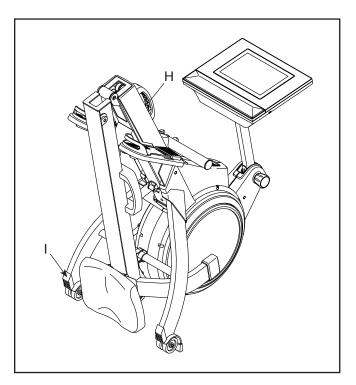

Take any necessary measures to protect your floor. Stand behind the rower and lift the Rail (G) until the rower will roll on the wheels. Then, carefully move the rower to the desired location,

and lower the Rail to the floor. **Do not hold or pull on the console when moving the rower.**

HOW TO MOVE THE ROWER IN THE FOLDED POSITION

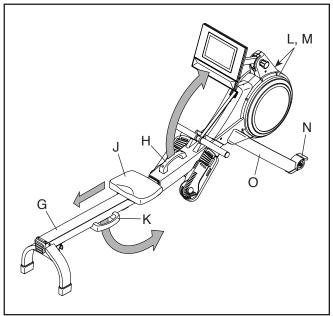

Take any necessary measures to protect your floor. See HOW TO FOLD AND STORE THE ROWER at the right, and fold the rower. Then, hold the Frame Handle (H), place your foot on a Stabilizer Foot (I), and tip the rower until it will roll on the wheels. Carefully move the rower to the desired location, and then tip it into the storage position. Do not hold or pull on the console when moving the rower.

HOW TO FOLD AND STORE THE ROWER

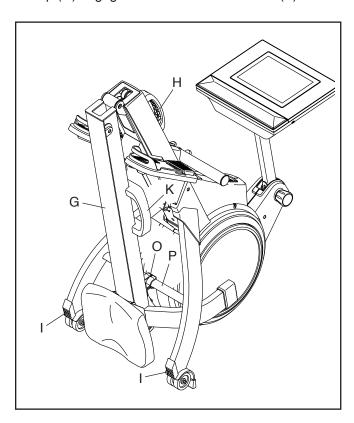

The rower can be stored in a folded position to conserve space. Store the rower in a location where children cannot tip it. Unplug the power adapter when storing the rower for extended periods of time.

To store the rower, first slide the Seat (J) to the rear of the Rail (G).

Next, hold and lift the Frame Handle (H) and the Rail Handle (K), and tip the rower forward onto the Shields (L, M) and the Storage Feet (N) (see the drawing on page 11).

Then, pull the Rail Handle (K) inward until the Folding Clamp (O) engages the bar on the Stabilizer (P).

To unfold the rower, first place your foot on a Stabilizer Foot (I) and pull the Rail Handle (K) outward to disengage the Folding Clamp (O).

Then, hold the Rail Handle (K) and the Frame Handle (H), pull the Rail Handle outward, and lower the Rail (G) to the floor.

HOW TO ROW ON THE ROWER

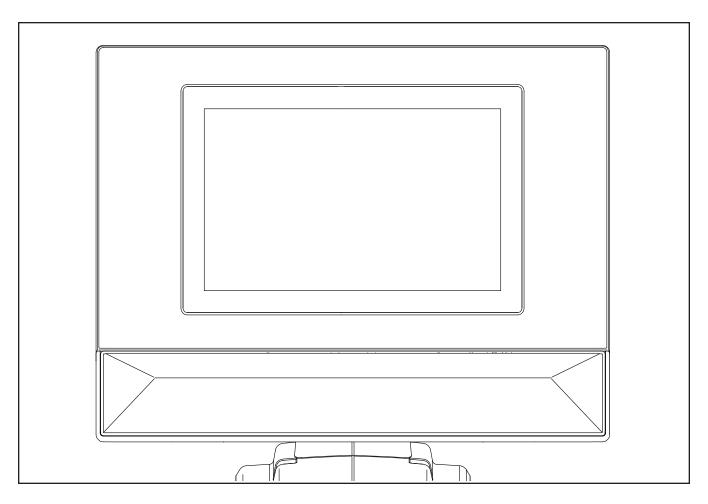

Sit on the seat, place your feet in the footrests, and adjust the straps to fit your feet. Then, hold the row bar with an overhand grip.

Correct rowing form consists of three phases:

- The first phase is the CATCH. Slide the seat forward until your knees are almost touching your chest. Pull the row bar until your hands are directly above your feet.
- 2. The second phase is the DRIVE. Push backward with your legs. Lean back slightly at the hips (not at the waist), keeping your back straight. As you straighten your legs, pull the row bar toward your chest. Keep your elbows outward.
- 3. The third phase is the FINISH. Your legs should be nearly straight. Continue to pull the row bar until your hands are even with your chest.

After the finish phase, extend your arms forward and pull the seat forward using your legs. Repeat this sequence, moving through all three phases with a smooth, fluid motion. Remember to breathe normally as you row; never hold your breath.

HOW TO USE THE CONSOLE

FEATURES OF THE CONSOLE

The advanced console offers a selection of features designed to make your workouts more effective and enjoyable.

When you use the manual mode of the console, you can change the resistance of the row bar with a touch of a button. As you exercise, the console will display continuous exercise feedback.

The console also features wireless technology that enables the console to connect to iFIT®. With iFIT, you can choose from a changing selection of featured

workouts that automatically adjust the resistance of the row bar as iFIT trainers guide you through immersive exercise sessions.

With an iFIT subscription, you can access a large library of on-demand destination and studio workouts, create your own workouts, track your workout results, and access many other features. Go to iFIT.com to learn more.

To turn on and turn off the console, see page 13. To learn how to use the touch screen, see page 13. To set up the console, see page 13.

HOW TO TURN ON THE CONSOLE

The included power adapter must be used to operate the rower (see page 9). After the power adapter is plugged in, it may take a moment for the console to be ready for use. If the console is inactive, simply touch the screen to activate the console.

HOW TO TURN OFF THE CONSOLE

If the row bar does not move for several seconds, the console will pause.

If the row bar does not move for several minutes and the screen is not touched, the console will become inactive.

When you are finished exercising, unplug the power adapter from the outlet. **IMPORTANT:** If you do not do this, the electrical components on the rower may wear prematurely.

HOW TO USE THE TOUCH SCREEN

The console features an advanced tablet with a fullcolor touch screen. You can slide or flick your finger against the screen to move images on the screen, such as the displays in a workout. Note: The screen is not pressure sensitive; you do not need to press hard.

To type information into a text box, touch the text box to view the keyboard. To use numbers or other characters, touch ?123. To view more characters, touch \sim [<. To return to the letter keyboard, touch ABC. To use a capital character, touch the shift button (upward-facing arrow symbol). To clear text, touch the clear button (backward-facing arrow with an X).

HOW TO SET UP THE CONSOLE

Before you use the rower for the first time, set up the console.

1. Connect to your wireless network.

To use iFIT workouts and to use several other features of the console, the console must be connected to a wireless network. Follow the prompts on the screen to connect the console to your wireless network.

2. Customize settings.

Follow the prompts on the screen to customize settings. Note: To change settings later, see page 18.

3. Create or log in to your iFIT account.

Follow the prompts on the screen create an iFIT account or to log in to your iFIT account.

4. Check for firmware updates.

Touch the menu button (three horizontal lines symbol), touch *Settings*, touch *Maintenance*, and then touch *Update*. The console will check for firmware updates. For more information, see HOW TO CHANGE CONSOLE SETTINGS on page 18.

The console is now ready for you to begin working out. The following pages explain the workouts and other features that the console offers.

To use the manual mode, see page 14. To use a featured workout, see page 15. To create a draw-your-own-map workout, see page 16. To use an iFIT workout, see page 16.

To change console settings, see page 18. To connect to a wireless network, see page 19.

Note: If there is a sheet of plastic on the screen, remove the plastic.

HOW TO USE THE MANUAL MODE

1. Select the home screen.

When you turn on the console, the home screen will appear after the console boots up. If you have already selected a workout, touch the screen and follow the prompts to end the workout and return to the home screen.

2. Get ready for the workout.

Touch *Manual Start* and begin rowing. A warm-up period will begin.

To use an optional heart rate monitor, see page 20.

Touch *End Warmup* or row until the warm-up period ends to start the workout.

3. Adjust the resistance to the desired level.

To change the resistance of the row bar, touch the resistance sliders on the screen. After you adjust the resistance, it will take a moment for the row bar to reach the selected resistance level.

Note: To view the resistance sliders on the screen, touch the screen in any open space and then touch *Controls*.

4. Follow your progress.

The console offers several display modes. The display mode that you select will determine which workout information is shown.

Drag upward on the screen to enter the fullscreen display mode. Drag downward to view the workout information displays.

Touch the various workout information displays to view more options. Touch the more button (+ symbol) to view statistics or charts. Touch the screen in any open space to view even more display mode options.

If desired, adjust the volume level by touching the screen in any open space and then touching the volume control.

5. Pause or end the workout.

To pause the workout, touch the screen and touch the pause icon or simply stop rowing. To continue the workout, touch the start icon or simply resume rowing.

To end the workout, touch the screen, touch the pause icon, and then follow the prompts on the screen to end the workout and return to the home screen.

6. When you are finished exercising, turn off the console (see page 13).

HOW TO USE A FEATURED WORKOUT

To use a featured workout, the console must be connected to a wireless network (see page 19).

1. Select the home screen or the workout library.

When you turn on the console, the home screen will appear after the console boots up. If you have already selected a workout, touch the screen and follow the prompts to end the workout and return to the home screen.

To select the workout library, touch *Browse*.

2. Select a workout.

To select a workout from the home screen or the workout library, simply touch the desired workout image on the screen. Slide or flick the screen to scroll as necessary.

The featured workouts on your console will change periodically. To save one of the featured workouts for future use, you can add it as a favorite by touching the favorites button (heart symbol). You must be logged in to your iFIT account to save a featured workout (see the second step 2 on page 18).

When you select a workout, the screen will show an overview of the workout that includes details such as the duration and distance of the workout and the approximate number of calories that you will burn during the workout.

3. Get ready for the workout.

Touch *Manual Start* and begin rowing. A warm-up period will begin.

To use your Bluetooth® headphones or an optional heart rate monitor, see page 20.

4. Start the workout.

Touch *End Warmup* or row until the warm-up period ends to start the workout.

During some workouts, an iFIT trainer will guide you through an immersive video workout. Touch

the screen in any open space to view and select music, trainer voice, and volume options for the workout.

During some workouts, the screen will show a map of the route and a marker indicating your progress. Touch the buttons on the screen to select the desired map options.

During some workouts, you may be prompted to maintain a target speed. As you exercise, keep your rowing speed near the target speed.

During the workout, the resistance of the row bar will automatically increase or decrease. **If the resistance level is too high or too low**, you can manually override the setting (see step 3 on page 16). To return to the programmed resistance settings of the workout, touch *Follow Workout*.

If the smart adjust feature is enabled, the console will scale the intensity level of the workout automatically based on your manual overrides of the resistance. To enable the smart adjust feature, touch the screen in any open space and then touch the smart adjust toggle.

IMPORTANT: The calorie goal shown in the workout description is only an estimate. The actual number of calories that you burn will depend on various factors, such as your weight. In addition, if you manually change the resistance level during the workout, the number of calories that you burn will be affected.

If the active pulse feature is enabled, the console will scale the intensity level of the workout automatically based on your heart rate when you use a compatible heart rate monitor (see step 3 on page 14). **To enable the active pulse feature**, see step 3 on page 18.

To follow your progress, see step 4 on page 14.

To pause or end the workout, see step 5 on page 14.

5. When you are finished exercising, turn off the console (see page 13).

HOW TO CREATE A DRAW-YOUR-OWN-MAP WORKOUT

To use a draw-your-own-map workout, you must be logged in to your iFIT account and the console must be connected to a wireless network.

1. Select a draw-your-own-map workout.

When you turn on the console, the home screen will appear after the console boots up. If you have already selected a workout, touch the screen and follow the prompts to end the workout and return to the home screen.

To select a draw-your-own-map workout, touch Create at the bottom of the screen.

2. Draw a workout on the map.

Navigate to the area on the map where you want to draw a workout by typing in the search box or by sliding your fingers on the screen. Touch the screen to add the starting point for the workout. Then, touch the screen to add the ending point for the workout.

If you want to start and end the workout at the same point, touch *Close Loop* or *Out & Back* in the map options. You can also select whether you want the workout to snap to the road. If you make a mistake, touch *Undo* in the map options.

The screen will display the elevation and distance statistics for the workout.

3. Save the workout.

Touch *Save New Workout*. If desired, enter a title and description for the workout.

4. Get ready for the workout.

Touch *Manual Start* and begin rowing. A warm-up period will begin.

To use your Bluetooth® headphones or an optional heart rate monitor, see page 20.

5. Start the workout.

Touch *End Warmup* or row until the warm-up period ends to start the workout. The workout will function in the same way as a featured workout (see step 4 on page 15).

6. When you are finished exercising, turn off the console (see page 13).

HOW TO USE AN IFIT WORKOUT

To use an iFIT workout, you must be logged in to your iFIT account and the console must be connected to a wireless network. For more information about iFIT, go to iFIT.com.

Select the home screen.

When you turn on the console, the home screen will appear after the console boots up. If you have already selected a workout, touch the screen and follow the prompts to end the workout and return to the home screen.

2. Log in to your iFIT account.

If you have not done so, touch the menu button (three horizontal lines symbol) on the screen and then touch *Log in* to log in to your iFIT account. Follow the prompts on the screen to enter your username and password.

To switch users within your iFIT account, touch the menu button, touch *Settings*, and then touch *Manage Accounts*. If more than one user is associated with the account, a list of users will appear. Touch the name of the desired user.

3. Select an iFIT workout from the home screen or the workout library.

Touch the buttons at the bottom of the screen to select either the home screen (*Home*) or the work-out library (*Browse*).

To select an iFIT workout from the home screen or the workout library, simply touch the desired workout image on the screen. Slide or flick the screen to scroll as necessary. The workout library contains all of the iFIT workouts available for the rower, organized into categories. To search the workout library, touch *Filters* and select the desired filtering options.

When you select an iFIT workout, the screen will show an overview of the workout that includes details such as the duration of the workout and the approximate number of calories that you will burn during the workout.

You can also select options such as adding the workout to your schedule (see step 4) or marking the workout as a favorite (see step 5).

4. Schedule an iFIT workout on the calendar if desired.

To schedule an iFIT workout for a future date, simply view the overview or workout summary of the desired iFIT workout, touch *Schedule*, and then select the desired date on the calendar. When the selected date arrives, the iFIT workout that you scheduled will appear on the home screen.

5. Create a list of favorite iFIT workouts if desired.

To mark an iFIT workout as a favorite, simply view the overview or workout summary of the desired iFIT workout and touch the favorites button (heart symbol).

To view a list of iFIT workouts that you have marked as favorites, touch *Browse* and then scroll downward to *My List*.

6. Get ready for the workout.

Touch *Manual Start* and begin rowing. A warm-up period will begin.

To use your Bluetooth® headphones or an optional heart rate monitor, see page 20.

7. Start the workout.

Touch *End Warmup* or row until the warm-up period ends to start the workout. The workout will function in the same way as a featured workout (see step 4 on page 15).

8. When you are finished exercising, turn off the console (see page 13).

HOW TO CHANGE CONSOLE SETTINGS

1. Select the settings main menu.

When you turn on the console, the home screen will appear after the console boots up. If you have already selected a workout, touch the screen and follow the prompts to end the workout and return to the home screen.

Then, touch the menu button (three horizontal lines symbol) on the screen and then touch *Settings*.

2. Navigate the settings menus and change settings as desired.

Slide or flick the screen to scroll upward or downward if necessary. To view a settings menu, simply touch the menu name. To exit a menu, touch the back button (arrow symbol). You may be able to view and change settings in the following settings menus:

Account

- · My Profile
- In Workout
- · Manage Accounts

Equipment

- · Equipment Info
- · Equipment Settings
- Maintenance
- Wi-Fi

About

Legal

3. Customize workout settings.

To customize workout settings and enable workout features, touch *In Workout* and then touch the desired settings.

When the active pulse feature is enabled, the console will scale the intensity level of workouts based on your heart rate when you use a compatible heart rate monitor. To enable the active pulse feature, touch the active pulse toggle. Then, select your resting and maximum heart rates and adjust related settings as desired.

4. Customize the unit of measurement and other settings.

To customize the unit of measurement, the time zone, or other settings, touch *Equipment Info* or *Equipment Settings* and then touch the desired settings.

View machine information or console app information.

Touch *Equipment Info* and then touch *Machine Info* or *App Info* to view information about your rower or about the console app.

6. Update the console firmware.

For the best results, regularly check for firmware updates. Touch *Maintenance* and then touch *Update* to check for firmware updates using your wireless network. The update will begin automatically. IMPORTANT: To avoid damaging the rower, do not turn off the console while the firmware is being updated.

The screen will show the progress of the update. When the update is complete, the console will turn off and then turn back on. If it does not, unplug the power adapter, wait for several seconds, and then plug the power adapter back in. Note: It may take a moment for the console to be ready for use.

Note: Occasionally, a firmware update may cause the console to function slightly differently. Updates are always designed to improve your exercise experience.

7. Exit the settings main menu.

To exit the settings main menu, touch the back button (arrow symbol).

HOW TO CONNECT TO A WIRELESS NETWORK

To use iFIT workouts and to use several other features of the console, the console must be connected to a wireless network.

1. Select the settings main menu.

When you turn on the console, the home screen will appear after the console boots up. If you have already selected a workout, touch the screen and follow the prompts to end the workout and return to the home screen.

Then, touch the menu button (three horizontal lines symbol) on the screen and then touch *Settings*. The settings menu will appear on the screen.

2. Set up and manage a wireless network connection.

Touch *Wi-Fi* to select the wireless network menu. If *Wi-Fi* is not enabled, touch the *Wi-Fi* toggle to enable it. When Wi-Fi is enabled, the screen will show a list of available networks. Note: It may take a moment for the list of wireless networks to appear.

Note: You must have your own wireless network and an 802.11b/g/n router with SSID broadcast enabled (hidden networks are not supported). The

console supports unsecured and secured (WEP, WPA™, and WPA2™) encryption. A broadband connection is recommended; performance depends on connection speed.

When a list of networks appears, touch the desired network. Note: You will need to know your network name (SSID). If your network has a password, you will also need to know the password. Passwords are case-sensitive. Follow the prompts on the screen to enter your password and connect to the selected wireless network.

When the console is connected to your wireless network, a confirmation message will appear on the screen.

If you are having problems connecting to an encrypted network, make sure that your password is correct. If you have questions after following these instructions, go to my.iFIT.com for assistance.

3. Exit the wireless network menu.

To exit the wireless network menu, touch the back button (arrow symbol).

HOW TO USE THE CHARGING PORT

The console features a charging port to charge USB-C compatible devices, such as smartphones and tablets, while you exercise.

To use the charging port, plug a USB-C charging cable (not included) into the receptacle on your device and into the charging port on the right side of the console; make sure that the USB-C charging cable is fully plugged in. Note: The charging port cannot be used to view or transfer data or to play music through the console sound system.

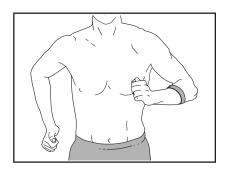

HOW TO CONNECT HEADPHONES

To connect your Bluetooth headphones to the console, first turn on your headphones, place them in pairing mode, and place them near the console. Then, start a workout. Next, touch the screen in any open space, touch the option to connect your headphones, and select your headphones from the list on the screen.

When your headphones and the console pair successfully, the audio from the console will play through your headphones.

HOW TO USE AN OPTIONAL HEART RATE MONITOR

Whether your goal is to burn fat or to strengthen your cardiovascular system, the key to achieving the best results is to maintain the proper heart rate during your

workouts. The optional heart rate monitor will enable you to continuously monitor your heart rate while you exercise, helping you to reach your personal fitness goals. The console is compatible with all Bluetooth® Smart heart rate monitors. To purchase an optional heart rate monitor, please see the front cover of this manual.

When your compatible heart rate monitor is turned on and placed in pairing mode, the console will connect to it automatically. When your heartbeat is detected, your heart rate will be shown on the screen.

FCC INFORMATION

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- · Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC CAUTION: To assure continued compliance, use only shielded interface cables when connecting to computer or peripheral devices. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

IMPORTANT: To satisfy exposure compliance requirements, the antenna and transmitter in the console must be at least 8 in. (20 cm) from all persons and must not be near or connected to any other antenna or transmitter.

Note: The console contains FCC ID: OMC453584C (Compal) or OMC453584V (CVTE).

MAINTENANCE AND TROUBLESHOOTING

MAINTENANCE

Regular maintenance is important for optimal performance and to reduce wear. Inspect and properly tighten all parts each time the rower is used. **Replace any worn parts immediately.** Use only manufacturer-supplied parts.

To clean the rower, use a damp cloth and a small amount of mild detergent. IMPORTANT: To avoid damage to the console, keep liquids away from the console and keep the console out of direct sunlight.

For best results, clean the rail, the seat carriage, and the carriage rollers daily.

TROUBLESHOOTING

Some problems can be solved with the simple steps in this section. Find the symptom that applies, and follow the steps listed. If further assistance is needed, go to my.iFIT.com, scan the QR code at the right, or call 1-833-680-IFIT (1-833-680-4348).

CONSOLE TROUBLESHOOTING

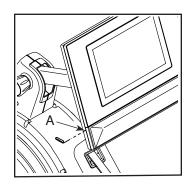

If the console does not turn on, make sure that the power adapter is fully plugged in.

If you are having problems connecting the console to a wireless network, or if you are having problems with your iFIT account or iFIT workouts, go to support.iFIT.com.

If a replacement power adapter is needed, see TROUBLESHOOTING at the left to order a power adapter. IMPORTANT: To avoid damagings the console, use only a manufacturer-supplied regulated power adapter.

If the console does not boot up properly, or if the console freezes and does not respond, reset the console to the factory default settings. IMPORTANT:

Doing this will erase all custom settings that you have made to the console.

Resetting the console

requires two people. First, unplug the power adapter. Next, locate the small reset opening (A) on the left side of the console. Using a bent paper clip, press and hold the reset button inside of the opening, and have a second person plug in the power adapter. Continue holding the reset button until the console turns on. When the reset operation is complete, the console will turn off and then turn back on. If it does not, unplug the power adapter and then plug it back in. Once the console turns on, check for firmware updates (see HOW TO CHANGE CONSOLE SETTINGS on page 18). Note: It may take a moment for the console to be ready for use.

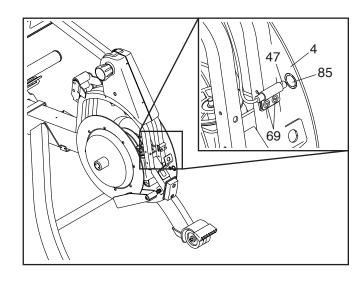

HOW TO ADJUST THE REED SWITCH

If the console does not display correct feedback, the reed switch should be adjusted.

See EXPLODED DRAWING B on page 27. Locate the Right and Left Shields (7, 8). Remove the four M4 x 19mm Screws (69) and the nine M4 x 16mm Screws (68) from the Right and Left Shields. Then, carefully remove the Right and Left Shields.

See the drawing at the right. Locate the Reed Switch (47). Turn the Left Flywheel (4) until a Magnet (85) is aligned with the Reed Switch. Then, slightly loosen the two indicated M4 x 19mm Screws (69), slide the Reed Switch slightly closer to or away from the Magnet, and then retighten the Screws.

Turn the Left Flywheel (4) so that the Magnet (85) passes the Reed Switch (47) repeatedly. Repeat these actions until the console displays correct feedback.

When the reed switch is correctly adjusted, reattach the parts that you removed.

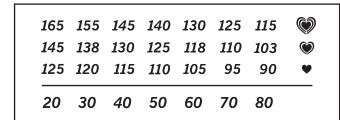

EXERCISE GUIDELINES

WARNING: Before beginning this or any exercise program, consult your physician. This is especially important for persons over age 35 or persons with pre-existing health problems.

These guidelines will help you to plan your exercise program. For detailed exercise information, obtain a reputable book or consult your physician. Remember, proper nutrition and adequate rest are essential for successful results.

EXERCISE INTENSITY

Whether your goal is to burn fat or to strengthen your cardiovascular system, exercising at the proper intensity is the key to achieving results. You can use your heart rate as a guide to find the proper intensity level. The chart below shows recommended heart rates for fat burning and aerobic exercise.

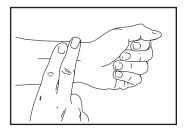

To find the proper intensity level, find your age at the bottom of the chart (ages are rounded off to the nearest ten years). The three numbers listed above your age define your "training zone." The lowest number is the heart rate for fat burning, the middle number is the heart rate for maximum fat burning, and the highest number is the heart rate for aerobic exercise.

Burning Fat—To burn fat effectively, you must exercise at a low intensity level for a sustained period of time. During the first few minutes of exercise, your body uses carbohydrate calories for energy. Only after the first few minutes of exercise does your body begin to use stored fat calories for energy. If your goal is to burn fat, adjust the intensity of your exercise until your heart rate is near the lowest number in your training zone. For maximum fat burning, exercise with your heart rate near the middle number in your training zone.

Aerobic Exercise—If your goal is to strengthen your cardiovascular system, you must perform aerobic exercise, which is activity that requires large amounts of oxygen for prolonged periods of time. For aerobic exercise, adjust the intensity of your exercise until your heart rate is near the highest number in your training zone.

HOW TO MEASURE YOUR HEART RATE

To measure your heart rate, exercise for at least four minutes. Then, stop exercising and place two fingers on your wrist as shown. Take a six-second heartbeat count, and multiply the

result by 10 to find your heart rate. For example, if your six-second heartbeat count is 14, your heart rate is 140 beats per minute.

WORKOUT GUIDELINES

Warming Up—Start with 5 to 10 minutes of stretching and light exercise. A warm-up increases your body temperature, heart rate, and circulation in preparation for exercise.

Training Zone Exercise—Exercise for 20 to 30 minutes with your heart rate in your training zone. (During the first few weeks of your exercise program, do not keep your heart rate in your training zone for longer than 20 minutes.) Breathe regularly and deeply as you exercise; never hold your breath.

Cooling Down—Finish with 5 to 10 minutes of stretching. Stretching increases the flexibility of your muscles and helps to prevent post-exercise problems.

EXERCISE FREQUENCY

To maintain or improve your condition, complete three workouts each week, with at least one day of rest between workouts. After a few months of regular exercise, you may complete up to five workouts each week, if desired. Remember, the key to success is to make exercise a regular and enjoyable part of your everyday life.

Model No. PFRW98125.0 R0824B

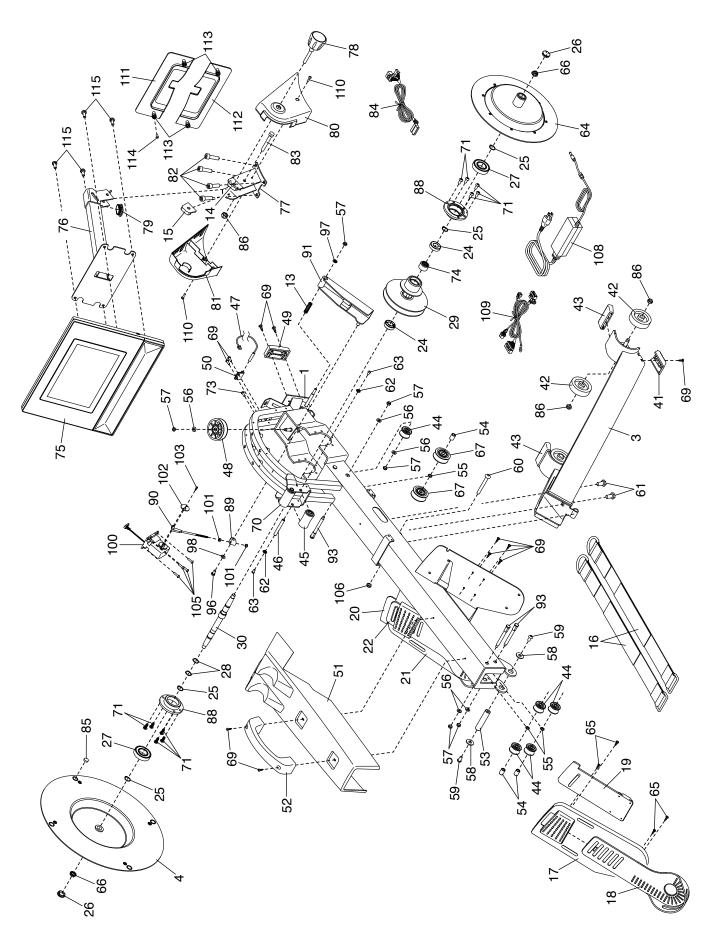

PART LIST

Key No.	Qty.	Description	Key No.	Qty.	Description
1	1	Frame	50	1	Clamp

ORDERING REPLACEMENT PARTS

To order replacement parts, please see the front cover of this manual. To help us assist you, be prepared to provide the following information when contacting us:

- the model number and serial number of the product (see the front cover of this manual)
- the name of the product (see the front cover of this manual)
- the key number and description of the replacement part(s) (see the PART LIST and the EXPLODED DRAWING near the end of this manual)

LIMITED WARRANTY

iFIT Inc. (iFIT) warrants this product to be free from defects in workmanship and material, under normal use and service conditions. The frame is warranted for five (5) years from the date that you receive this product. Parts and labor are warranted for one (1) year.

This warranty extends only to the original purchaser (customer) and is not transferrable. iFIT's obligation under this warranty is limited to repairing or replacing, at iFIT's discretion, the product through one of its authorized service providers. All repairs for which warranty claims are made must be preauthorized by iFIT. If replacement parts are shipped while the product is under warranty, the customer will be responsible for a minimal handling charge. For in-home service, the customer may be responsible for a minimal trip charge. This warranty does not extend to freight damage to the product. This warranty will automatically be voided by the following conditions: (1) if the product is used as a store display model, (2) if the product is purchased or transported outside the USA, (3) if any instruction or warning in this manual is not followed, (4) if the product is abused or improperly or abnormally used, (5) if the product is modified to alter functionality or capability without the written permission of iFIT, or (6) if the product is used for commercial or rental purposes. No other warranty beyond that specifically set forth above is authorized by iFIT.

iFIT is not responsible or liable for the following damages: (1) indirect, special, or consequential damages arising out of or in connection with the use or performance of the product; (2) damages with respect to any economic loss, loss of property, loss of revenues or profits, loss of enjoyment or use, or costs of removal or installation; or (3) other consequential damages of any kind. Some states do not allow the exclusion or limitation of incidental or consequential damages. Accordingly, the above limitation may not apply to the customer.

The warranty extended hereunder is in lieu of any and all other warranties, and any implied warranties of merchantability or fitness for a particular purpose are limited in their scope and duration to the terms set forth herein. Some states do not allow limitations on how long an implied warranty lasts. Accordingly, the above limitation may not apply to the customer. This warranty provides specific legal rights; the customer may have other rights that vary from state to state.

For warranty service, please go to my.iFIT.com. Please be prepared to provide the model number and serial number of the product (see the front cover of this manual).
