

# THIS PRODUCT IS TO BE USED FOR WATER DO NOT USE FOR GAS

**LIMITED WARRANTY:** This product has a Limited Warranty of one year from date of original consumer retail purchase. Proof of purchase is required for any/all warranty claims.

**Improper installation can cause leaks, floods and property damage.**

**Warranty does not cover any damages resulting from improper installation and/or maintenance.**

**It is the responsibility of the installer to ALWAYS follow building codes and construction standards.**

**For use with water in exposed location only.**

## INSTALLATION

Prior to installation:

- ✓ Inspect product before installing. Do not use if damaged in any way.
- ✓ Shut off water, gas and electricity to appliance before installing.
- ✓ Make sure you select proper length water hose and connecting sizes for the application.
  - Bend radius: Minimum 2 ½ inches

Make sure that the installation is free of twists, kinks, line loops, sharp angles which impact the flow of water as this can cause internal damage to the line.

DO NOT use thread lubricants, tape, or putty.

**HAND-TIGHTEN**, as a final security measure after hand-tightening perform a ¼ turn with a wrench.

**Make sure you DO NOT overtighten as overtightening can damage line, connectors, and seals.**

## USAGE CRITERIA

- Continuous pressure less than 125 psi
  - Maximum intermittent impulse pressure 180 psi
- For use with continuous temperature, less than 160°F
  - Maximum intermittent exposure is 180°F

## MAINTENANCE

Inspect after installation and every six months thereafter (more frequently if you have “hard water”). Replace hose if there are signs of damage, leaks, corrosion, twists/kinks, cracks, excessive wear or weeping. DO NOT reuse.

**Lead Free:** The wet surface of this product contacted by consumable water contains less than one quarter of one percent (0.25%) of lead by weight.

**WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
