

Thank You

for bringing me home!

Spruce Me Up

I've been in a dark box traveling. Here are some quick tips to get me settled:

- Remove yellow leaves or broked stems.
- If my soil is dry, give me a drink of water.
- Set me in the right light.

PLANT CARE

Alocasia

Light

I like bright, indirect light where I cast a strong shadow at least a couple of hours a day, but don't mind medium light.

Water

I don't want my roots to stay wet, so let the top inch or two of the potting soil dry before you water me again.

Food

I don't need a lot of fertilizer, so you can feed me once or twice in spring and/or summer. You can feed me more often if you want me to grow faster.

Features

Big, bold leaves make me one of the most dramatic houseplants you can enjoy.

Growing tips

I like above-average humidity. Watch for spider mites--unfortunately, they like me.

Give me friends! I play well with:

Calathea, Philodendron Birkin, Philodendron Pink Princess
