

Please read first!

The cushions and throw pillows have been vacuum-sealed.
Due to the extended compression time, they will need
2 to 3 days to fully air out and return to their normal state,
which is a normal phenomenon.

**Be sure to knead and slap it vigorously to
ensure the sponge inside is filled with air,
which will help it regain its fluffiness!**

If you need other help, please contact us.

ASSEMBLY INSTRUCTIONS

Read instructions cover to cover

Have two adults on hand for assembly

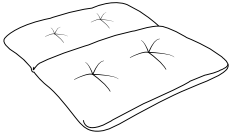

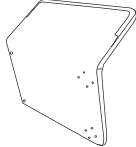

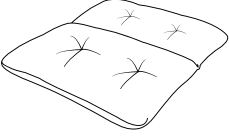

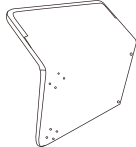

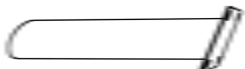

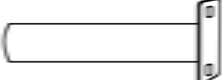

Do NOT assemble on flooring or carpet. Assemble on a clean non-marring surface (ex: packing foam)

Save all packaging until assembly is complete
