

*Van Zyverden's*  
**PATIO LILY OF THE VALLEY** *with Green Metal Planter and Growers Pot*

Lily Of The Valley (*Convallaria*) bears dainty, white flowers with a strong, sweet perfume. Bell-like blooms hang from semi-pendulous stems with lance-like foliage. They do very well in pots. You may have limited space or not have a home garden, so you may simply prefer pot culture. This makes them easier to care for and does not require much space, as long as you have some space for a medium size pot on your porch, patio or balcony.

*Clean, sweet fragrance*

*Fast grower*

*Easy to grow  
in containers*

**About This Variety:** Our patio Lily Of The Valley kit comes with everything you need to grow this exotic plant. Three large packaged Lily Of the Valley roots, a 5" x 7" trendy green metal decorative outer pot, a 5" nursery pot, a block of compressed soil, and growing directions.

**Growing Instructions:** Plant early spring so the roots can get established before the hot weather. Some shade will extend flowering time. Simply expand the soil, following the directions, fill the nursery pot with 2/3 of the medium, position the roots in a triangle position, pointy end up and cover with the remaining soil. Then water well, not letting the pot dry out.

**Care Tip:** As bulbs are essentially storage mechanisms, they already contain everything needed to produce flowers. There is no need to fertilize them. After flowering, remove the root ball from the pot and plant in your garden prior to frost to enjoy blooms next spring.

**Exposure:** Partial shade

**Height:** Grows 8" tall

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
