any reason, Products of the type originally installed are no longer available from use at the time you make a warranty claim, we may substitute another product determined by us to be of comparable quality and price.

4. There are no warranties on these Products other than as set forth in this Warranty. We are not liable to you for a breach of any other written or oral express warranties, such as those, if any, given to you by dealers, contractors, applicators, or distributors of the Products.

5. WE EXCLUDE AND ARE NOT RESPONSIBLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING OUT OF ANY BREACH OF THIS EXPRESSED WARRANTY, OR ANY OTHER ORAL, WRITTEN OR IMPLIED WARRANTY THAT MAY APPLY TO YOUR PURCHASE, AS IT RELATES TO OUR PRODUCTS. THIS IS YOUR EXCLUSIVE WARRANTY AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

6. This Warranty gives you specific legal rights. You may also have other rights which vary from state to state. **SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.**

THESE DEFINITIONS APPLY TO THE TERMS USED:

Coverage means the extent of our commitment to respond to any claim relating to the siding. Excessive Color Fade means a change in the color of any siding in excess of a Delta E, as determined by us, and specified below by color, following the initial installation of the Product, provided that any uneven or abnormal fade distribution is not due to a buildup or accumulation of stains, dirt, mold, mildew, or any other deficiency caused by the lack of at least an annual preventative maintenance by the homeowner as such annual preventative maintenance is described below in Care and Maintenance. In addition, the excessive color fade warranty does not apply to custom colors of siding and accessories. First-Time Transferee means the first individual, person or entity to which any interest of the initial purchaser in the building on which the siding is initially installed or in the siding itself is voluntarily or involuntarily conveyed, transferred or assigned, whether by gift, sale or operation of law, after the initial installation of the siding.

Purchase and Installation Price means the sum of (a) the total original cost of the siding that is defective or otherwise being replaced, plus (b) the total original cost of labor for the installation of siding that is defective or otherwise being replaced. If we cannot determine these amounts from original documents, we will compute the purchase and installation price using (i) our suggested retail price in effect at the time of the installation for the cost of material, (ii) labor rates prevailing in the area where the building is located at the time of installation and (iii) an estimated installation time for the cost of labor. Residence means regular or full-time permanent lodging by a single family. Weathering means changes caused by exposure to sunlight, rain, air pollution, variations in temperature and other atmospheric conditions. Weathers Unevenly or Uneven Weathering, such as checker boarding, means uneven or non-uniform change in color of contiguous elements of siding under uniform, even and equal exposure to sunlight, natural radiation, rain, natural variations in temperature or other atmospheric conditions. Warranty coverage upon transfer is as described in detail above. Upon any transfer of the property, your obligations become the obligations of the new property owners.

CARE AND MAINTENANCE

Your selection of siding to cover your most valuable investment should provide a beautiful appearance and long lasting protection for your home. To keep your investment beautiful over the years, you should implement the following procedure for the major care of your siding. While siding comes closer to being totally maintenance free than any other siding on the market today, it will become dirty just as does a freshly painted house or a new automobile or any other product which is exposed to atmospheric conditions. Generally, your siding can be cleaned satisfactorily through the use of an ordinary garden hose. If this does not do the job, then we suggest the following:

Equip the garden hose with a soft-bristled, long-handled car brush. Where soil is of a stubborn nature (as frequently found in industrial areas), the following cleaning solution works well:

- 1/3 cup detergent (e.g., Tide)
- 2/3 cup trisodium phosphate (e.g., Soilax)
- 1 gallon of water

In certain geographical areas where mildew may be a problem, substitute one quart of 5% sodium hydrochlorite (Clorox, for example) for one quart of water in the above formula. Where the house is extremely dirty, it is recommended that you start washing from the bottom and go to the top, rinsing frequently. Cleaning solutions should be permitted to stand on the surface of the siding for several minutes before rinsing.

CAUTION: Do not use or mix sodium hypochlorite with other household chemicals or products containing ammonia. To do so will release hazardous gases.
