

4,000 LM Battery Powered LED Pro Lantern Instruction Manual

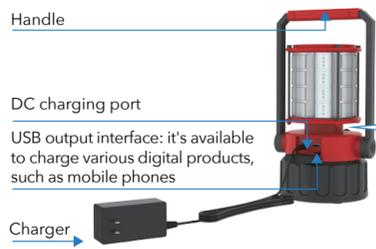

PRODUCT FEATURES AND SPECIFICATIONS

Product Feature : Portable | Energy saving | Built-in 18650 battery | Multiple usage | No flickering | Diversified lighting methods

Specification	
Model No.	PL-48W-G1
Power	48W±10%
LED Chip	2835
CCT	3000-5700K
CRI	≥80
Lumen	mode 1: 4000lm±10% mode 2: 2000lm±10% mode 3: 800lm±10%
Voltage	100-240VAC 50/60Hz
Size mm x 0.0393=inch	Φ174 * 317MM Φ6.85 * 12.48inch
Operation Temp (°C/°F)	-10°C~40°C 14°F~104°F
Certification	FCC CE CUL UL ROHS
Battery Capacity	14.8V/7800mAh
USB Output	5V / 2A
Warranty	Whole fixture:2 years Battery:1 year
Recommended charging time	8H
IP level	IP54
Battery protection device:	Over temperature/over discharge /short circuit/overload protection.

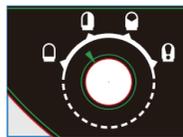

FUNCTION DESCRIPTION

Caution !!
High temperature here, do not touch when the light is working.

FUNCTION DESCRIPTION

Mode
360° light on the side of the device, no light on the top.

Mode
180° light on the side of the device, no light on the top.

Mode
Light on the top of the device, no light on the side.

Mode
Light on the top of the device, flashing once every 0.4 seconds, no light on the side.

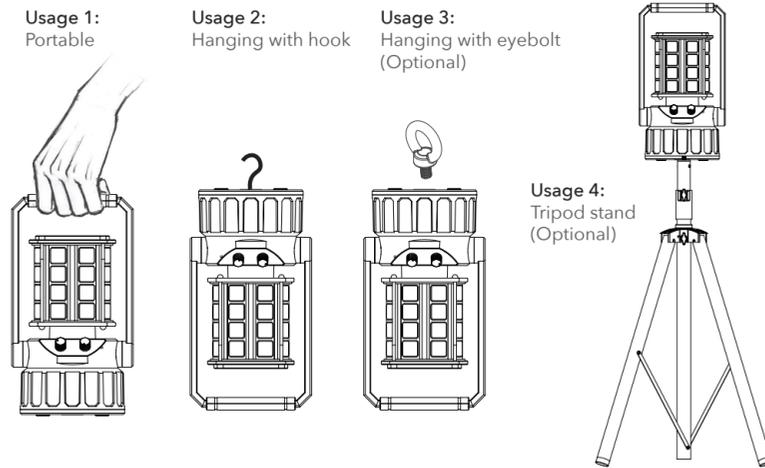

DIMMING
Resistive switching and dimming, min is off, max is 100%.

Battery indicator, 25% per grid.

USAGE

CAUTIONS

- 1.If the battery is damaged and needs to be replaced, please contact the manufacturer, do not use other batteries by yourself, please charge and use it strictly according to the instructions.
- 2.The recommended ambient temperature range for charging is 0-40°C. Charging in environments beyond this range will degrade the battery performance and shorten its life.
- 3.Please use the original charger to charge the battery under the recommended environmental conditions.
- 4.Children are prohibited.
- 5.Do not shoot the product with a water gun or immerse it in water.
- 6.It is normal for the battery capacity to decrease after used for a long time.

WARNING

- 1.The battery inside this product has protective devices and protective circuits to avoid danger. Improper disassembly will damage the protection function, and will cause the battery to heat, smoke, deform or burn. Do not disassemble without permission.
- 2.Do not wet the battery or immerse it into water, otherwise it will cause the loss of the internal protection circuit and function of the battery and abnormal chemical reactions, and cause the battery to heat, smoke, deform or burn.
- 3.Charging under abnormal conditions will cause the loss of function of the internal protection circuit of the battery and abnormal chemical reactions, and cause the battery to heat, smoke, deform or burn.
- 4.If the charger is still charging for a long time beyond the normal charging time, it should be stopped. Abnormal charging may cause the battery to heat, smoke, deform or burn.
- 5.The individual parts of this product will generate high temperature during use. Do not touch when the light is working.
- 6.Do not squeeze or hit the lamp, otherwise the battery inside the lamp may heat, smoke, deform or burn and explode.
- 7.If the battery heats, smokes, and burns unexpectedly, please stay away from the product, hide in a safe place immediately, and ask professionals to handle it.

WARRANTY

- Warranty of the whole fixture is 2 years and battery is 1 year since the purchasing date, free maintenance service is available for the quality problems such as manufacturing process, technology and components etc.
- Please check the product carefully after open the package, if any damage, please keep the package and contact to the local distributor.
- Paid service is available for the following cases:
 - Expiry.
 - Damage caused by the improper use such as improper installation without reference on the manual, shipping or other accidents, disaster, abnormal voltage, etc.
 - Normal aging and abrasion.
