

Chinese Evergreen Aglaonema Wishes

Sunlight

Low to bright indirect light. Avoid direct sun. Even does well with fluorescent.

Water

Keep soil moist, but not soggy. Let top 2" of pot soil dry between waterings. Do not let plant sit in water.

Pet Friendly

Can be toxic if ingested

Mature Size

Height: 3'
Width: 3'

Air Purification

Excellent – removes benzene and other airborne toxins

Plant Hardiness

Outdoor: Zones 10-12
Indoor: ANY ZONE

Indoor Care Tips

Use a bark based with peat, sand, and perlite soil mixture in a well draining pot. Do not re-pot until plant is root-bound.

Outdoor Care Tips

- Plant in well-draining area; in-ground or a planter
- Bring indoors when temp goes below 60° F

Expert Advice

- Loves humidity
- Relatively pest resistant
- Very easy plant to care for
