Stainless Steel Surface-Mounted Waste Receptacle

Our Stainless Steel Surface Mounted and Receptacle is made from long-lasting, heavy gauge stainless steel with a smooth satin finish. Our waste receptacle's ample sized leakproof 6.4-gallon waste container is ideal for high traffic areas such as public bathrooms. Inside the wastebasket is a stainless-steel clip to ensure the trash bag is secure throughout the day. With the included hardware, you can quickly install this without taking up much space and have it ready for your patrons. We guarantee a long-lasting receptacle that will keep your floors clear of debris and your patrons happy.

FEATURES

Resistant: Satin-finished surface is resilient to a variety of messes and is easy to sanitize.

Equipped: Stainless steel clip is located inside of the receptacle to hold trash bags in place.

Compact: It won't take up a substantial amount of space but has ample holding capacity for waste.

SPECS

Weight: 7.3 lbs.

Capacity: 6.4 Gallons

Dimensions: 18" H x 14" W x 6" D

Material: Durable, heavy-gauge stainless steel

Interior metal clips will stop your garbage bags from slipping when filled.

Easily mounts to any surface with the included hardware.

Its compact design won't take up a lot of space and the 6.4 gallon capacity is adequate to service your bathroom.
