

# BORA<sup>®</sup> NGX SAW PLATE

## STRAIGHT CUTS MADE EASY

### Easy Saw Alignment

Use the circular saw's built-in indicator to align the saw with the saw plate's cut line.

**Convenient Cut Lines**  
Located at 2" offset.

### Tool Free

Saw Mounting,  
Adjustable to fit  
most circular saws.

**Accurate T-Track Connection**  
Compatible for use with all BORA<sup>®</sup> WTX & NGX Clamp Edge saw guides.

The all-new BORA<sup>®</sup> Saw Plate helps make sure every cut is clean and smooth. Compatible for use with the BORA<sup>®</sup> NGX & WTX Clamp Edges, the saw plate's new intuitive, easy to use design allows quick, tool-free mounting that is adjustable to fit most all circular saws. Simply connect the saw plate to the clamp edge using the accurate t-track connector snap in your circular saw and you are ready to go. Use your circular saw's built-in indicator to align with the saw plate's cut line, located at a convenient 1.5" offset, and get perfect cuts every time.
