FORWARD

Thank you for purchasing and using our rv steps!

The steps are sturdy, stable and slip-resistant, made of high-quality steel with a rust-proof surface. It can adapt to complex indoor and outdoor environments, providing both security and convenience for indoor and outdoor use.

SAFETY AND PRECAUTIONS

Please read the these installation instructions carefully before using your rv steps. Keep these instructions where users can read them for ready reference.

1. Before use, please make sure that the steps are securely installed to prevent injury and accidents.
2. Before use, please make sure that the steps are securely placed on a flat surface, and not on a sloping or uneven place.
3. When climbing up and down the steps, please grasp the handrail with both hands and walk slowly to prevent falling or bumping the steps in an accident.
4. When using, please do not overload, please do not carry overweight or oversized items up and down the steps to avoid personal injury or accidents.
5. Prohibit jumping or other dangerous behavior on the steps to avoid causing personal injury or accidents.
6. When not in use, clean the dust and debris on the surface of the steps in time and keep the surface of the steps dry.
7. Minors may only use the steps under the guidance of their guardians.
8. If the steps are found to be damaged or malfunctioning during use, please stop using them immediately and have them repaired.

PRODUCT DIAGRAM

Take 2 step as an example:

COMPONENTS

	NO.	Name	Picture	
1	A	Two-layer main frame		2
2	B	Cover plate		4
3	C	Slanted Strip 02		6
4	D	handrail 04		2
5	E	Handrail post		4
6	F	Mushroom head bolt M6x60		16
7	G	Flat washer M6		82
8	H	Nut M6		33
9	I	Mushroom head bolt M6x40		16
10	J	Mushroom head bolt M6x35		16

COMPONENTS				
	NO.	Name	Picture	
12	L	Wrench		1
13	M	Slanted Strip 02		2
14	N	The third layer frame		2
15	O	Fourth-level framework		2
16	P	Mushroom head bolt M6x15		1

INSTALLATION PREPARATION

1. One or two people to move and assemble the step.
2. Please prepare a carpet or mat to protect your floor you need to spread out all the accessories.
3. Please prepare gloves to avoid being scratched by sharp parts that may occur during installation.
4. Please open all the boxes to check that the accessories are complete and in good condition.
5. If you need to use power tools to install this product, please set the speed to low speed in advance.
6. When installing, please align all the holes and do not tighten all the screws first, otherwise, it may make the installation difficult.

INSTALLATION STEPS

STEP 1: As shown in the figure, use the screw (I) to fix the cover plate (O) onto the ONA component.

STEP 2: As shown in the figure, use screws (F) to connect the fourth layer main frame (O) with the third layer frame (N) and the second layer main frame (A).

STEP3: As shown in the figure, use screws (J) to fix the metal plate 01 (C) to the N component and the A component respectively. Also, fix the metal plate 02 M to the component O.

STEP 4: As shown in the figure, the handrail column (E) is fixed to the main frame by long screws (F).

STEP 4: As shown in the figure, the straight handrail (D) is fixed to the handrail post (E).

MAINTENANCE

1. Use a soft cloth to wipe the surface of the steps to remove dust and dirt, do not use strong acid or alkaline cleaners to prevent damage to the steps.
2. Periodically inspect the support legs, panels, handrails, screws and other parts of the iron steps for looseness or damage. If any problems are found, immediate repair or replacement should be done.
3. For parts that have lost paint after a few years of use, the exposed surface should be treated with graphite oil or paint to prevent rusting and extend the life of the steps.
4. Avoid hitting the steps with sharp objects to prevent damage. If you find impact marks on the steps, they should be repaired in time.
5. Before storing the steps, clean and dry it, then store it in a dry, ventilated area.
6. In case of emergency, such as breakage or severe rusting, they should be repaired or replaced immediately. In emergency situations, temporary supports should be used to support the steps to avoid injury to persons.
