

## SECTION 1 : IDENTIFICATION

KILZ Original Interior/Exterior Primer (350 VOC) Product Name:

Product Code: 1009 SDS Manufacturer Number: 1009

Manufacturer Name: Masterchem Industries LLC 3135 Old Highway M Imperial, MO 63052-2834

General Phone Number: (636) 942-2510 General Fax Number: (636) 942-3663 (800) 325-3552 Customer Service Phone

Number:

CHEMTREC: For emergencies in the US, call CHEMTREC: 800-424-9300 In Canada, call CANUTEC: (613) 996-6666 (call collect) Canutec:

SDS Creation Date: February 15, 2019 SDS Revision Date: February 15, 2019

## SECTION 2 : HAZARD(S) IDENTIFICATION

GHS Pictograms:

Signal Word: Warning.

GHS Class:

Flammable Liquid, Category 3. Aspiration Hazard, Category 1. Eye Irritant, Category 2B.

Skin Irritant, Category 2. Specific Target Organ Toxicity, Single Exposure, Category 3.

Acute Inhalation Toxicity, Category 4

Hazard Statements: Flammable liquid and vapor

May be fatal if swallowed and enters airways. Causes serious eye irritation.

Harmful if inhaled.

May cause respiratory irritation, drowsiness or dizziness.

DO NOT use this product unless you can achieve cross-ventilation by opening windows and doors during Precautionary Statements:

application and drying or use the product outdoors.

Do not spray on an open flame or other ignition source. Extinguish all flames and pilot lights and turn off stoves, heaters, electric motors, high intensity lights

and other sources of ignition during use and until all vapors are gone.

In case of fire: Use dry chemical, carbon dioxide to extinguish small fires. Use water for large fires.

Wear protective clothing, gloves, eye, and face protection.
Do not breathe vapors or spray mist.
Do not eat, drink or smoke when using this product.

Wash hands thoroughly after handling. Take off contaminated clothing and wash it before reuse.

Keep container tightly closed. Store locked up in a cool, well-ventilated place.

Dispose of unused contents, container, and other contaminated wastes in accordance with local, state, federal, and provincial regulations.

If in eyes: Rinse cautiously with water for several minutes and remove contacts if present and easy to

do. Continue rinsing and get medical attention if eye irritation persists.

If on skin or hair: Wash with plenty of soap and water. If skin irritation or rash occurs, get medical

If inhaled: Leave the area if you experience headaches, drowsiness or dizziness to obtain fresh air and keep at rest in a position comfortable for breathing. If difficulty continues, get medical attention

immediately

If swallowed: Do not induce vomiting and get medical attention immediately.

DANGER! Flammable. Harmful if swallowed. Aspiration may occur during swallowing or vomiting, resulting in lung damage. Harmful if inhaled. Inhalation of vapors may cause drowsiness and Emergency Overview:

dizziness. Irritant.

Route of Exposure: Eyes. Skin. Inhalation. Ingestion.

Potential Health Effects:

Eye: Causes severe eye irritation and possible injury.

Skin: Causes skin irritation.

Harmful if inhaled. Inhalation of vapors may cause drowsiness and dizziness. Prolonged or excessive Inhalation:

inhalation may cause respiratory tract irritation.

Ingestion: Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and gastrointestinal irritation.

Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be

Chronic Health Effects: Prolonged or repeated contact can result in defatting and drying of the skin, which may result in skin

irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.

Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.

Target Organs: Eyes. Skin. Respiratory system. Digestive system. Central nervous system. Kidney.

Aggravation of Pre-Existing Conditions:

May aggravate pre-existing respiratory disorders, allergy, eczema, or skin conditions.

#### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS#	Ingredient Percent	EC Num.
Calcium carbonate (limestone)	1317-65-3	10 - 30 by weight	
Rutile	1317-80-2	5 - 10 by weight	
Distillates (petroleum), hydrotreated light; Kerosine - unspecified	64742-47-8	5 - 10 by weight	
Mineral spirits	8052-41-3	1 - 5 by weight	
Nepheline Syenite	37244-96-5	5 - 10 by weight	
Silicate, mica	12001-26-2	10 - 30 by weight	
Talc, Magnesium silicate hydrate	14807-96-6	1 - 5 by weight	
Titanium dioxide	13463-67-7	5 - 10 by weight	
VM&P Naphtha/Aliphatic Hydrocarbon	8032-32-4	5 - 10 by weight	

## SECTION 4 : FIRST AID MEASURES

Immediately flush eyes with plenty of water for at least 15 to 20 minutes. Ensure adequate flushing of Eye Contact:

the eyes by separating the eyelids with fingers. Remove contacts if present and easy to do. Continue rinsing. Get medical attention, if irritation or symptoms of overexposure persists.

Skin Contact: Immediately wash skin with soap and plenty of water. Get medical attention if irritation develops or persists

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained

personnel. Seek immediate medical attention.

Ingestion: If swallowed, do NOT induce vomiting. Call a physician or poison control center immediately. Never give

anything by mouth to an unconscious person

Due to possible aspiration into the lungs, DO NOT induce vomiting if ingested. Provide a glass of water to dilute the material in the stomach. If vomiting occurs naturally, have the person lean forward to Other First Aid:

reduce the risk of aspiration.

# SECTION 5 : FIRE FIGHTING MEASURES

Flammable Properties: Flammable liquid.

Flash Point: 74°F (23°C)

Flash Point Method:

Auto Ignition Temperature: Not applicable. Lower Flammable/Explosive Limit: 0.8% by volume Upper Flammable/Explosive Limit: 8.9% by volume

Fire Fighting Instructions: Flammable. Cool fire-exposed containers using water spray.

Extinguishing Media: Use dry chemical, carbon dioxide to extinguish small fires. Use water for large fires.

Protective Equipment: As in any fire, wear Self-Contained Breathing Apparatus (SCBA), MSHA/NIOSH (approved or equivalent) and full protective gear.

Unusual Fire Hazards: Flammable liquid. Vapors can form an ignitable mixture with air. Vapors can flow along surfaces to a

distant ignition source and flash back.

NFPA Ratings:

NFPA Health: 1 3 NFPA Flammability: NFPA Reactivity: 1

## SECTION 6 : ACCIDENTAL RELEASE MEASURES

Evacuate area and keep unnecessary and unprotected personnel from entering the spill area. Use proper personal protective equipment as listed in Section 8. Personal Precautions:

**Environmental Precautions:** Avoid runoff into storm sewers, ditches, and waterways.

Contain spills with an inert absorbent material such as soil or sand. Prevent from spreading by Methods for containment: covering, diking or other means. Provide ventilation. Eliminate all ignition sources including those

beyond the immediate spill area if safe to do so.

Clean up spills immediately observing precautions in the protective equipment section. Collect spill with a non-sparking tool. Place into a suitable container for disposal. Take precautionary measures against Methods for cleanup:

static discharges. After removal, flush spill area with soap and water to remove trace residue.

SECTION 7 : HANDLING and STORAGE

Handling: DO NOT use this product unless you can achieve cross-ventilation by opening windows and doors during

application and drying or use the product outdoors. Avoid breathing vapor and contact with eyes, skin and clothing. Material will accumulate static charges which may cause an electrical spark (ignition

source). Use proper grounding procedures.

Store in a cool, dry, well ventilated area away from sources of heat, combustible materials, and incompatible substances. Keep container tightly closed when not in use. Storage:

Work Practices: To reduce potential for static discharge, bond and ground containers when transferring material.

Special Handling Procedures: Do not reuse containers without proper cleaning or reconditioning.

Hygiene Practices: Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling vapor or mist.

## SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION

Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general **Engineering Controls:** 

ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance

of the personal protective equipment.

Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the European standard EN 166. Eve/Face Protection:

Chemical-resistant gloves and chemical goggles, face-shield and synthetic apron or coveralls should be used to prevent contact with eyes, skin or clothing. Skin Protection Description:

Respiratory Protection: A NIOSH approved air-purifying respirator with an organic vapor cartridge or canister may be

permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.

Other Protective: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety

PPE Pictograms:

## <u>Distillates (petroleum), hydrotreated light; Kerosine - unspecified :</u>

Guideline ACGIH: TLV-TWA: 200 mg/m3 (Negligible aerosol exposures)

Mineral spirits:

Guideline ACGIH: TLV-TWA: 100 ppm PEL-TWA: 500 mg/m3 Guideline OSHA:

Silicate, mica: TLV-TWA: 3 mg/m3 (R) Guideline ACGIH: Guideline OSHA: PEL-TWA: 20 mppcf

Talc, Magnesium silicate hydrate:

Guideline ACGIH: TLV-TWA: 1 mg/m3 Respirable fraction (R)

Guideline OSHA: PEL-TWA: 20 mppcf

Titanium dioxide:

Guideline ACGIH: TLV-TWA: 10 mg/m3 Guideline OSHA: OSHA-TWA: 15 mg/m3

VM&P Naphtha/Aliphatic Hydrocarbon:

Guideline ACGIH: TLV-TWA: 300 ppm

# SECTION 9: PHYSICAL and CHEMICAL PROPERTIES

Physical State: Liauid. Color: White Odor: Solvent. Odor Threshold: Not applicable.

**Boiling Point:** >99°F (>37°C) Melting Point: Not applicable.

Density: 11.39

Solubility: Not applicable. Not applicable. Vapor Density:

Vapor Pressure: Not applicable. Evaporation Rate: Not applicable. pH: Not applicable. Viscosity: 50-140

Coefficient of Water/Oil

Not applicable.

Distribution:

Flammability: Liquid. Flash Point: 74°F (23°C)

Flash Point Method: None.

Auto Ignition Temperature: Not applicable. **VOC Content:** 349 q/L

#### SECTION 10: STABILITY and REACTIVITY

Chemical Stability: Stable under normal temperatures and pressures.

Hazardous Polymerization: Not reported.

Heat, flames, ignition sources, and sparks. Incompatible materials. Freezing or temperatures below  $0^{\circ}\text{C}$  (32°F). Conditions to Avoid:

Incompatible Materials: Oxidizing agents. Strong acids and alkalis.

# SECTION 11: TOXICOLOGICAL INFORMATION

Mineral spirits:

Administration into the eye - Rabbit Standard Draize test: 500 mg/24H [Moderate] (RTECS) Eye:

Inhalation: Inhalation - Rat LC50 - Lethal concentration, 50 percent kill: >1400 ppm/8H [Details of toxic effects

not reported other than lethal dose value] (RTECS)

Talc, Magnesium silicate hydrate:

Skin: Administration onto the skin - Human Standard Draize test.: 300 ug/3D (Intermittent) (RTECS)

Titanium dioxide:

Skin: Administration onto the skin - Human Standard Draize test.: 300 ug/3D (Intermittent) (RTECS)

Chronic Effects: Causes damage to organs through prolonged or repeated exposure to particulates or powder.

Normal application procedures for this product pose no hazard as to the release of respirable titanium

dioxide dust.

Carcinogenicity: IARC: Group 2B: Possibly carcinogenic to humans. Based on Inhalation studies in rats exposed to fine

or ultrafine particles (dust) of titanium dioxide.

VM&P Naphtha/Aliphatic Hydrocarbon:

Eye - Human Standard Draize test.: 880 ppm/15M (RTECS) Eve:

 $Inhalation - Rat\ LC50 - Lethal\ concentration,\ 50\ percent\ kill:\ 3400\ ppm/4H\ [Behavioral\ -\ Convulsions\ or\ effect\ on\ seizure\ threshold\ Behavioral\ -\ Muscle\ weakness]\ (RTECS)$ Inhalation:

## SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity: No ecotoxicity data was found for the product.

Environmental Fate: No environmental information found for this product.

## SECTION 13: DISPOSAL CONSIDERATIONS

Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, Waste Disposal:

if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local

guidelines.

## SECTION 14: TRANSPORT INFORMATION

DOT Shipping Name: Paint. DOT UN Number: UN1263 DOT Hazard Class: 3 DOT Packing Group: III

DOT Exemption: Not applicable.

Paint. IATA Shipping Name: IATA UN Number: 1263 IATA Hazard Class: 3 IATA Packing Group: III
