

Van Zyverden's
DAYLILY BELA LUGOSI

The daylily (*Hemerocallis*) is considered a “sure bet” perennial, as they thrive throughout most of the country. They tolerate less than ideal conditions and will bloom faithfully for years with virtually no attention. As the name implies, daylily flowers open in the morning and die by nightfall. Each flower stem typically has at least a dozen flower buds, and the plant stays in bloom for many weeks. They should be planted in every garden.

best award winning purple daylily

very easy to grow and drought tolerant

success guaranteed

About This Variety: Hemerocallis Bela Lugosi is a premium daylily and probably the best purple on the market. It is a fast grower, branches well and produces many buds. Its color is a true purple with a lime green yellowish throat. The foliage is mostly evergreen.

Growing Instructions: Best planted in groups for dramatic effect in full sun, on moist, yet well drained soil. Excellent ground cover, as a single specimen, or in mass plantings to create a focal point in the garden.

Care Tip: They are tough robust plants, so not much can grow wrong. They do like an abundance of water.

Exposure: full sun to partial shade

Height: grows 24-36" tall

Spacing: plant 18-24" apart, just below soil line deep

USDA Zones: hardy in USDA zones 3-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
