

Van Zyverden's CANNA RED KING HUMBERT

Cannas are among the most colorful summer bulbs with ruffled spikes tapering to refined buds, boasting immense, paddle shaped leaves. Their great reedy canes and palmy foliage make for large, magnificent plants, yielding blooms all summer for long lasting curb appeal. They are deer resistant and appear most dramatic when grouped in masses. These are fast growers with large flowers.

with glossy bronze foliage*

good in garden beds or larger containers

easy to grow and low maintenance

About This Variety: Red King Humbert cannas bloom tomato-red blooms, with bronze glossy foliage. Looks great planted amid green leafed shrubs and other green leafed perennials as they add depth to the garden. Pollinators such as hummingbirds love the variety. Best of all they are deer resistant, but sadly often sold out before the end of the season.

Growing Instructions: Where not hardy, plant outdoors in early summer 2" deep, setting the rhizome in the hole, 'eyes' (shoots) up. Cannas do best with a good supply of water.

Care Tip: As flowers fade, deadhead to promote continued flowering. They like moist conditions.

Exposure: full sun to partial shade

Height: grows 72" tall

Spacing: plant 18-24" apart, 2-4" deep

USDA Zones: hardy in USDA zones 8-11

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
