

Dow's most economical foam dispensing gun, the PRO 13 Gun is a great place to get started applying GREAT STUFF PRO™ products. Enabling precise, pinpoint application control when applying adhesive or when filling, sealing and insulating gaps, cracks, and window and door jambs, the PRO 13 Gun features:

- Lightweight, durable plastic handle and body with metal trigger
- Good bead control; allows variable bead size from 1/8" to 3" (0.3 cm to 8 cm)
- Large flow control knob
- Replaceable barbed dispensing nozzle
- Includes two 8" (203 mm) plastic extension straws and two 2" (51 mm) cone-shaped tips

All PRO Series foam dispensing guns eliminate post-dispensing foam drip, helping reduce foam waste and minimize cleanup. A tight seal between the gun and the can allows the can to be reused for up to 30 days.
