### PARTS

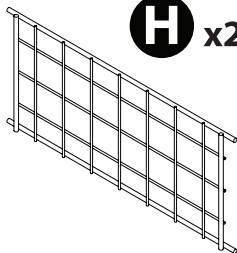

**D** x1

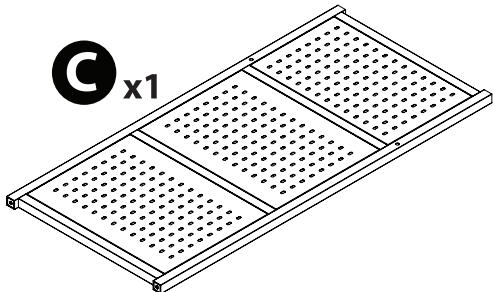

**E** x2

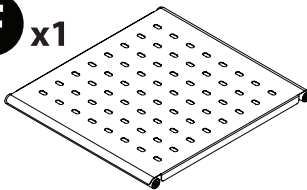

**H** x2

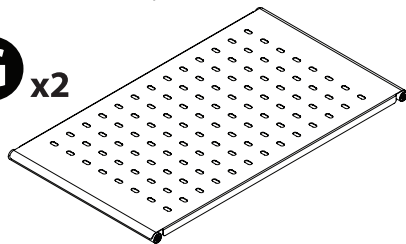

**C** x1

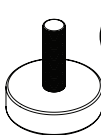

**F** x1

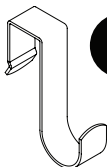

**G** x2

**I** x4

**J** x4

### TOOLS

Use #2 Phillips screwdriver or power drill with #2 drive bit for assembly

**WARNING:** Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

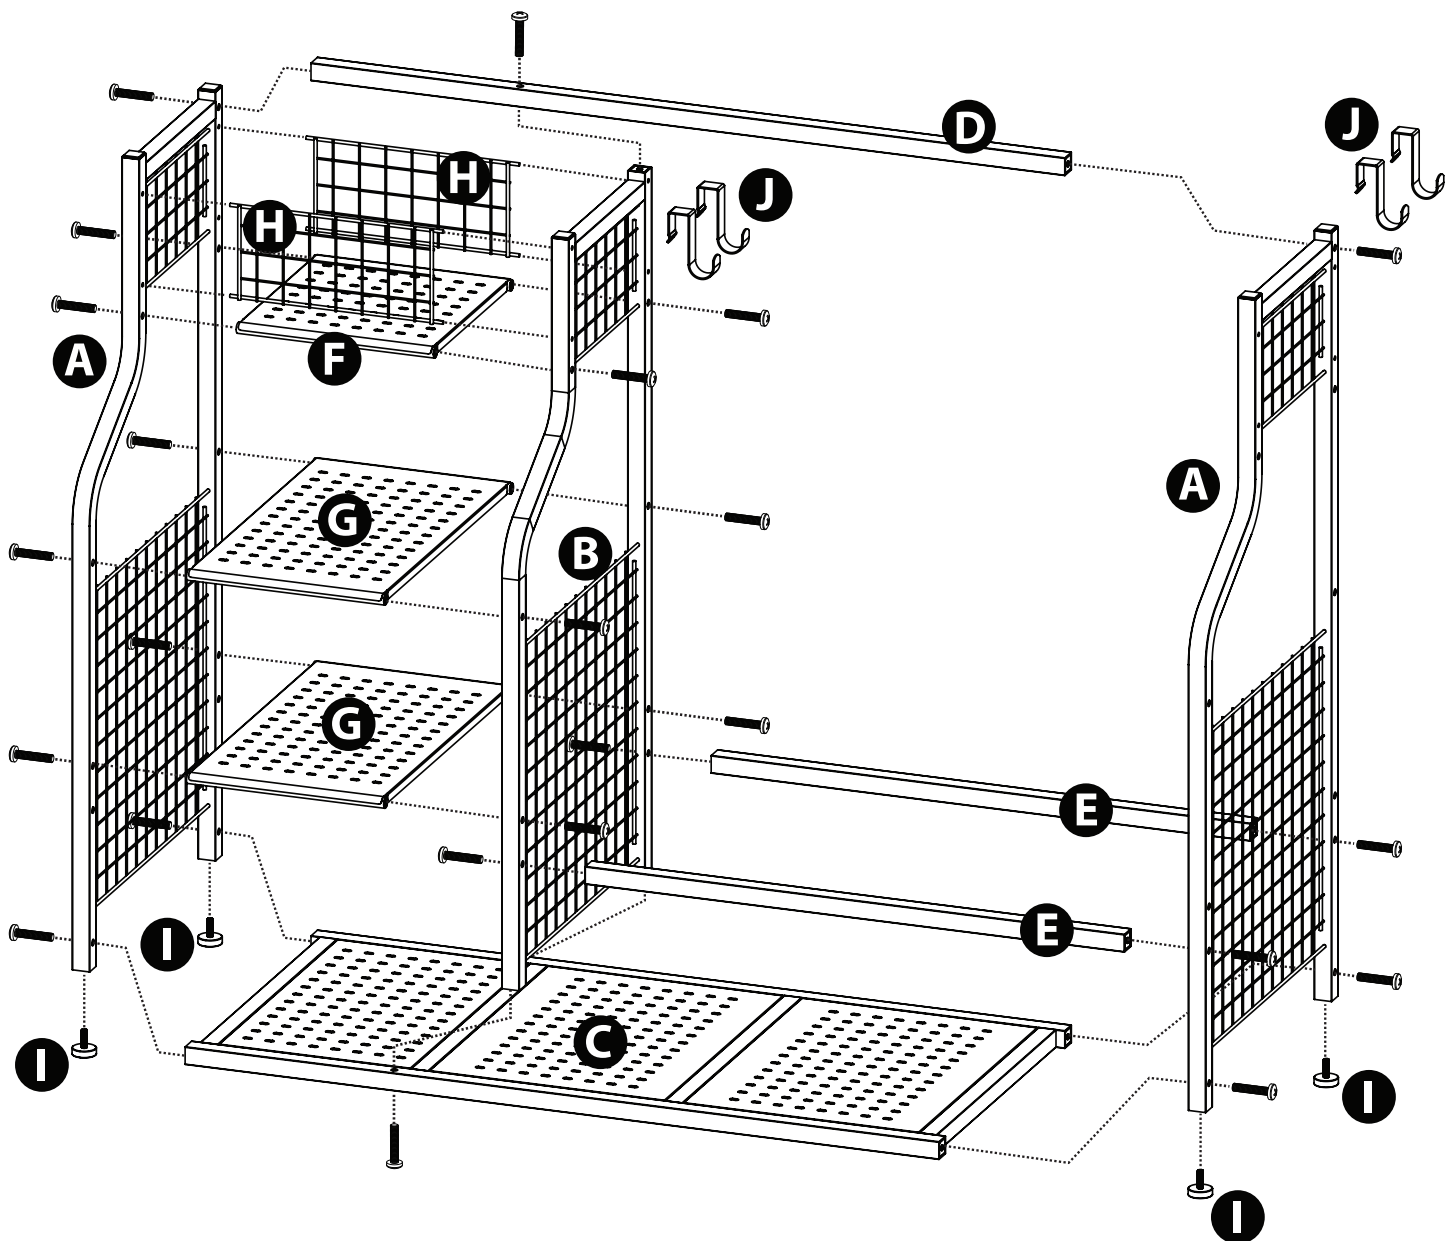

# ASSEMBLY

**NOTE:** Assemble with the bolts loosely attached, tighten all bolts completely when the unit is fully assembled. Start by inserting the feet (I) into the bottom of the side frames (A). Align the floor of the rack (C) with the side frames (A) and insert bolts.

With the unit on its back, insert bolts through the bottom of the floor (C) into the bottom of the center frame (B). Return the unit upright and insert bolts through side frame (A) into the tubes (E) and through the center frame (B) into the tubes.

Next, align the shelves (G) between the left side frame (A) and the center frame (B), inserting the bolts. Holding the left side frame (A) and the center frame (B) apart, align the two grid panels (H) and insert them into the associated holes. Align the top shelf (F) and insert bolts through the left side frame (A) and the center frame (B) to secure. Place the top spreader tube (D) and attach by inserting bolts through the two side frames (A) into the tube. Then insert bolt vertically downward through spreader tube (D) and into center frame (B).

Go back now and tighten all the bolts completely. Snap the hooks (J) onto the top horizontal tubes at your desired positions.
