

INSTALLATION MANUAL

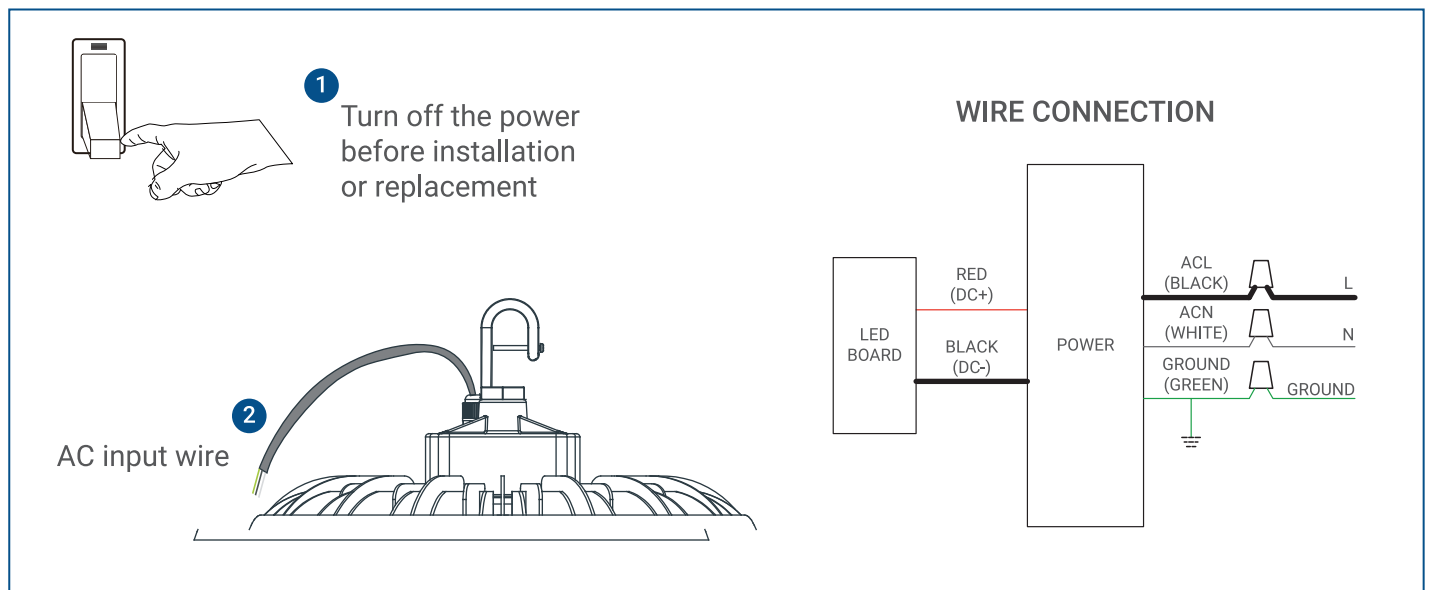

SAFETY INSTRUCTION:

Fixtures must be wired in accordance with the National Electrical Code and all applicable local codes. Proper grounding is required for safety. This product must be installed in accordance with the application code by a person familiar with the construction and operation of the product, and the hazards involved. Turn off the power before installing fixture. Check that the voltage is compatible with the fixture driver.

MAINTENANCE CAUTION

- Review the diagrams before beginning, and make sure fixture is grounded properly
- For lighting controls, use functioning correctly. Non-dimmable fixtures are not suitable to use with dimmers
- Turn off the power and wait for the fixture to cool down to operate
- Maintenance must be done by professionals

I INSTALLATION INSTRUCTIONS

II FEATURES
