CARE & MAINTENANCE

SAFE USE: Do not stand in the chair. Only use this unit on a flat, level surface.

CHILDREN: Supervise children at all times. Never allow children to play or sleep in hammock chairs.

INSPECT: Check unit for damage before each use. Periodically check hardware and tighten as necessary. Do not use this unit if the ropes, fabric, or stand show signs of weakness.

SUN EXPOSURE: All fabrics will eventually fade from sun exposure. Maintain the fabric color and integrity by storing the chair indoors when not in use.

WINTER CARE & STORAGE: Maintain the overall appearance and prevent damage by storing this item indoors when not in use, especially during winter and inclement weather. A cool, dry location is recommended to prevent damage. Covering with a breathable cover while in storage helps prevent dust build-up. Ensure the chair is dry before storing as moisture promotes mold and mildew growth.

SCRATCHES: The powder-coating is tough and durable, but, even under normal use, some scratching is inevitable. Scratches can be repaired with rust-resistant paint (not included); consult an expert at your local hardware store.

WARNING: THE ONE-YEAR WARRANTY DOES NOT COVER DAMAGES OR DEFECTS CAUSED BY THE APPLICATION OF CHEMICAL TREATMENTS, PROTECTIVE COATINGS, TOUCH-UP PAINT, OR CLEANING PRODUCTS.

CLEANING

 SPOT CLEAN/HAND-WASH ONLY  DO NOT USE BLEACH OR FABRIC SOFTENERS  LAY FLAT TO DRY

HAMMOCK: Spot clean with a damp cloth.

For more stubborn stains, hand-wash in a bathtub or kiddie pool using mild soap and a soft-bristled scrub brush. Soaking may be required for heavily soiled fabric or ropes.

Thoroughly rinse all soap residue. Air-dry on a flat surface to prevent the ropes from stretching. The ropes may shrink slightly while drying but will stretch back out with use.

STAND: Use a soft, damp cloth to wipe stand surfaces. Note, hardware may rust after long-term exposure to humidity and moisture.

TROUBLESHOOTING

- If the stand seems unstable, make sure it is on a level surface.
- If a spring button does not engage during assembly, it may be misaligned or stuck. Check to make sure the button is properly aligned with the corresponding hole. If the button is stuck, use a thin, small tool to help release the button from the tube in which it is installed.

SAFETY STATEMENTS & WARNINGS

- Do not exceed the weight capacity.
- Never stand in the chair.
- Inspect item before use to ensure components are not damaged and hardware is securely fastened.
- Keep furniture a safe distance from heat sources such as, but not limited to, fire pits, patio heaters, and grills.
- Do not allow children to use this product without adult supervision.
- Do not use harsh chemicals, abrasive materials, or a pressure washer to clean the furniture.

Any modification to the product or failure to follow recommended care will void the product warranty.
