

# HFHW-036 Assembly Instruction

## Parts List:

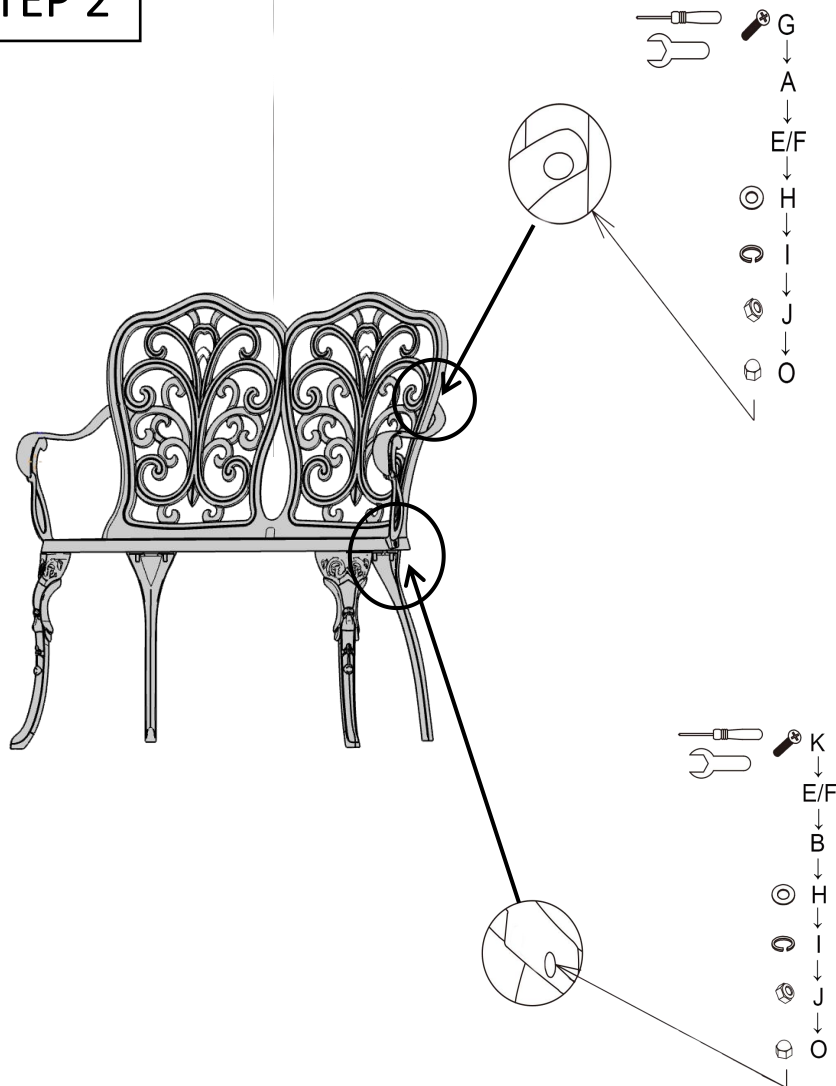

|                                                                                            |                                                                                             |                                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| G  2pcs | J  4pcs  | O  4pcs                                                                                         |
| K  2pcs | L  11pcs | P  11pcs                                                                                        |
| H  4PCS | M  11pcs |  1pc<br> 1pc |
| I  4PCS | N  11pcs |  cushion 1pc                                                                                    |

## STEP 1

# Assembly Instruction

## STEP 2

## STEP 3

Step 1: Attach the backrest panel (A) and chair legs (C&D) studs to the contact points on the chair seat panel (B), using Washers and Nuts (L,M,N). DO NOT tighten the bolts.

Step 2: Attach the Right arm and Left arm (E&F) to the Chair Seat (B) and chair back (A) using Bolts (K&G), washers, spring washers and nuts (H,I,J), and using washers, spring washers and nuts (H,I,J). Then tighten all bolts and nuts.

Step 3: Put the cushion on the bench seat and your bench can be used now.
