HOME PERIMETER TREATMENT

- One 24oz bottle treats the average home over 5 times
- Kills 25 species of ants
- Granules are carried directly into the mound by workers as food for the colony
- When the gueen is dead, the mound dies

WHY THIS PRODUCT IS SO EFFECTIVE:

- This product is highly attractive to many ant species. The granules are carried directly into the mound by workers as food for the colony.
- Inside the mound, the bait is passed to the gueen, as well as to other ants. By the end of one to four weeks. the gueen and most of the ants in the mound will have eaten this product and died.
- When the queen is dead, no new worker ants can be produced, so the mound dies.
- Ants think that Amdro Ant Block is food. They carry it into the colony and share it with other ants and the queen. When the queen dies, the colony dies.

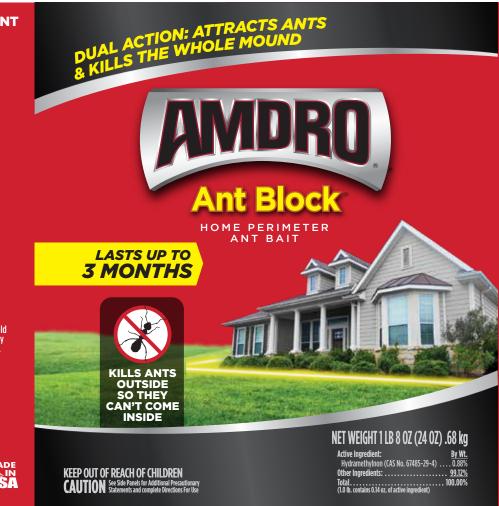

Product Information: This product is attractive to many ant species, and the delayed action of hydramethylnon allows foraging ants to bring the bait back to the nest so that the entire colony, including the queen(s), is destroyed. You should see fewer ants within a week of treatment. Some species may require additional applications to achieve maximum control.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION: Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street. back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

In case of an emergency involving this product, call 1-800-265-0761.
