OY8080 Installation Instructions

Please Scan the QR code to watch the installation video. If you have any questions, please feel free to contact us through the order page.

Connect the black (or brown) wire to the live (L) wire
Connect the white (or blue) wire to the neutral (N) wire.

Installation Steps:

Before installation:Open the packaging, locate all the accessories, and place them on a clean surface to prevent wear and damage to the lamp body.

1-2. Attach the lamp arms to the lamp body and tighten with nuts.

3. Wiring: Connect all white wires to the main white wire and all black wires to the main black wire using wiring caps.Wrap the wire caps with electrical tape to prevent electric leakage.

4-5. Fit the cover on the bottom and tighten securely with a ball nut.

6. Secure the mounting bracket to the ceiling using the expansion screws.

7. Connect the lamp wires to the power line. Please ensure the power is turned off first and connect with the correct polarity.

8. Align the canopy with the mounting bracket and secure it with nuts.

9. Install the light bulbs.

Warning!

1.Installation should be performed by a professional.

2.To prevent electric shock, please turn off the power before installing, repairing, or cleaning the light fixture.

3.This light fixture operates within a 110V to 265V range only.

4.Do not install the light fixture in damp conditions.

5.Keep the light fixture away from acidic and corrosive materials.
