Installing the fan

1.Assemble fan blades

- Insert 5 fan blades into the fan in sequence as shown.

2.Installing fan

CAUTION : To reduce the risk of electric shock, disconnect the electrical circuit to the fan before installing the light fixture

- Install the fan onto the lamp holder at home.

Tips

- Even if we have a sudden stop protection , To reduce the risk of injury , Please do not put fingers or other things into the working fan blades.
- For daily cleaning, you can use a damp cloth to wipe the surface without using corrosive chemicals.
- The fan blades can also be disassembled directly , convenient for cleaning and storage.
