

CHECK THE ROOM DIMENSIONS

- First, check the room size, and then ensure there is at least 30 inches (76 centimeters) of clearance or space between the fan and any walls or other obstacles that the fan blades might hit to optimize airflow. After installation, please verify blades are at least 7.5 feet (2.3 meters) above the ground.

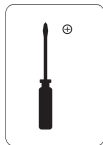

TOOLS NEEDED

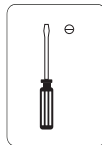

Step
ladder

pliers

Phillips
screwdriver

Flat blade
screwdriver

Electrical
tape

tape
measure
