②		Bolt (M8x45mm)	7
③		Bolt (M8x83mm)	7
④		Spring Washer (M8)	14
⑤		Flat Washer (M8)	14
⑥		Allen Wrench (M6)	1
⑦		Bolt (M6x38mm)	3
⑧		Spring Washer (M6)	3
⑨		Flat Washer (M6)	3
⑩		Hole Sticker	3
⑪		Wood tenon (Φ10x40mm)	3

Assembly Preparation

Before Beginning Assembly:

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

Overview

Chair Left Armrest (A)

Seat Cushion(C)

Chair Backrest(E)

Chair Right Armrest(B)

Bottom Frame(D)

FRONT FACING

This Barstool has multiple parts and may require up to some 30 minutes to assemble. To give you an overview of the barstool parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Place all Parts on a clean and flat surface.

Step 2

As shown in the picture, place the Wooden tenon (11) in the wooden tenon hole on the side of the Seat cushion (C). Place on a clean soft surface to avoid scratches or damage to the product.

Step 3

Use the Allen Wrench (①), bolts (②), (③), spring washers (④) and flat washers (⑤) to install the seat cushion (C) and the bottom frame (D) as shown in the figure above.

Do not fully tighten the Bolts at this time.

Step 4

Use the Allen Wrench (①), bolts (②), (③), spring washers (④) and flat washers (⑤) to install the seat cushion (C) and the bottom frame (D) as shown in the figure above.

Do not fully tighten the Bolts at this time.

Step 5

Install the Chair Back (E) as shown in the figure above using the Allen Wrench (⑥), bolts (⑦), spring washers (⑧) and flat washers (⑨).
Do not fully tighten the Bolts at this time.

Step 6

Place the barstool on a level Surface to check for wobbles.
If it wobbles, lift the Barstool some 30cm to 50cm high from the ground.
Keep your feet and toes well away from the drop zone.
Drop the barstool freely and vertically, with all four legs hitting the ground at the same time.
This Drop Test will help to ensure that all Bolts and gaps reach full alignment status.
Test again for evenness on a Level Surface.
If no wobbles are found, proceed to tighten all the Bolts.
When tightening the Bolts, tighten sequentially.
Do not fully tighten any Bolt fully and then move on towards the next one.
This may cause the frame to warp.
If there are still wobbles, loosen the Bolts and execute this same drop test.

Step 7

As shown in the figure, stick the Hole Sticker (⑩) to the bolt slot on the seat back (A) (B).

Step 8

Your barstool is ready for use.
This barstool can only be used on a flat, level surface.
