Revision Date 11/25/2019

# **SECTION 1. IDENTIFICATION**

| Product name  | : | SikaQuick <sup>®</sup> -100 Asphalt Patch Part A                   |  |
|---|---|--|--|
| Company name  | : | Sika Corporation   |  |
|   |   | 201 Polito Avenue<br>Lyndhurst, NJ 07071<br>USA<br>www.sikausa.com |  |
| Telephone   | : | (201) 933-8800   |  |
| Telefax   |   | (201) 804-1076   |  |
| E-mail address  | : | ehs@sika-corp.com  |  |
| Emergency telephone                                     | : | CHEMTREC: 800-424-9300<br>INTERNATIONAL: 703-527-3887              |  |
| Recommended use of the chemical and restrictions on use | : | For further information, refer to product data sheet.              |  |

## **SECTION 2. HAZARDS IDENTIFICATION**

#### GHS classification in accordance with 29 CFR 1910.1200

Not a hazardous substance or mixture.

#### **GHS** label elements

Not a hazardous substance or mixture.

#### **Additional Labeling**

There are no ingredients with unknown acute toxicity used in a mixture at a concentration >= 1%.

#### Other hazards

None known.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### Mixtures

#### Components

| Chemical name                                      | CAS-No.   | Classification | Concentra-<br>tion (% w/w) |
|--|-----------|----------------|----------------------------|
| asphalt  | 8052-42-4 |                | >= 50 - < 70               |
| Actual concentration is withheld as a trade secret |           |                |                            |

Actual concentration is withheld as a trade secret

#### **SECTION 4. FIRST AID MEASURES**

General advice

: No hazards which require special first aid measures.

Revision Date 11/25/2019

| If inhaled  | : | Move to fresh air.   |
|---|---|--|
| In case of skin contact                                     | : | Take off contaminated clothing and shoes immediately.<br>Wash off with soap and plenty of water.   |
| In case of eye contact                                      | : | Flush eyes with water as a precaution.<br>Remove contact lenses.<br>Keep eye wide open while rinsing.  |
| If swallowed  | : | Clean mouth with water and drink afterwards plenty of water.<br>Do not induce vomiting without medical advice.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person. |
| Most important symptoms and effects, both acute and delayed | : | No known significant effects or hazards.<br>No information available.  |
| Notes to physician  | : | Treat symptomatically.   |

# SECTION 5. FIRE-FIGHTING MEASURES

| Suitable extinguishing media                   | : | Use extinguishing measures that are appropriate to local cir-<br>cumstances and the surrounding environment.  |
|--|---|---|
| Further information                            | : | Collect contaminated fire extinguishing water separately. This<br>must not be discharged into drains.<br>Fire residues and contaminated fire extinguishing water must<br>be disposed of in accordance with local regulations. |
| Special protective equipment for fire-fighters | : | In the event of fire, wear self-contained breathing apparatus.  |

## SECTION 6. ACCIDENTAL RELEASE MEASURES

| Environmental precautions                             | : | Local authorities should be advised if significant spillages cannot be contained.                          |
|---|---|--|
| Methods and materials for containment and cleaning up | : | Wipe up with absorbent material (e.g. cloth, fleece).<br>Keep in suitable, closed containers for disposal. |

# SECTION 7. HANDLING AND STORAGE

| Advice on protection against fire and explosion | : | Normal measures for preventive fire protection.  |
|---|---|--|
| Advice on safe handling                         | : | For personal protection see section 8.<br>No special handling advice required.<br>Follow standard hygiene measures when handling chemical<br>products. |

| Conditions for safe storage | : | Keep container tightly closed in a dry and well-ventilated<br>place.<br>Store in accordance with local regulations. |
|-----------------------------|---|---|
| Materials to avoid          | : | No special restrictions on storage with other products.   |

# SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## Ingredients with workplace control parameters

| Components | CAS-No.   | Value type<br>(Form of<br>exposure)  | Control parame-<br>ters / Permissible<br>concentration | Basis |
|------------|-----------|--------------------------------------|--|-------|
| asphalt    | 8052-42-4 | TWA (Fume,<br>inhalable<br>fraction) | 0.5 mg/m3<br>(benzene soluble<br>aerosol)              | ACGIH |

The above constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

| Engineering measures :        | Use of adequate ventilation should be sufficient to control<br>worker exposure to airborne contaminants. If the use of this<br>product generates dust, fumes, gas, vapor or mist, use pro-<br>cess enclosures, local exhaust ventilation or other engineer-<br>ing controls to keep worker exposure below any recommend-<br>ed or statutory limits. |
|-------------------------------|---|
| Personal protective equipment |   |
| Respiratory protection :      | Use a properly fitted NIOSH approved air-purifying or air-fed   |

| Respiratory protection   | : | Use a properly fitted NIOSH approved air-purifying or air-fed respirator complying with an approved standard if a risk as-<br>sessment indicates this is necessary.   |
|--------------------------|---|---|
|                          |   | The filter class for the respirator must be suitable for the max-<br>imum expected contaminant concentration<br>(gas/vapor/aerosol/particulates) that may arise when han-<br>dling the product. If this concentration is exceeded, self-<br>contained breathing apparatus must be used. |
| Hand protection          | : | Chemical-resistant, impervious gloves complying with an<br>approved standard should be worn at all times when handling<br>chemical products if a risk assessment indicates this is nec-<br>essary.  |
| Eye protection           | : | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary.   |
| Skin and body protection | : | Choose body protection in relation to its type, to the concen-<br>tration and amount of dangerous substances, and to the spe-<br>cific work-place.  |
| Hygiene measures         | : | Wash hands before breaks and immediately after handling   |

Revision Date 11/25/2019

the product. Remove contaminated clothing and protective equipment before entering eating areas.

#### **SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

| Appearance  | : | liquid                  |
|---|---|-------------------------|
| Color   | : | black                   |
| Odor  | : | odorless                |
| Odor Threshold                                      | : | No data available       |
| рН  | : | 7 - 9                   |
| Melting point/range / Freezing point                | : | No data available       |
| Boiling point/boiling range                         | : | No data available       |
| Flash point   | : | Not applicable          |
| Evaporation rate                                    | : | No data available       |
| Flammability (solid, gas)                           | : | No data available       |
| Upper explosion limit / Upper<br>flammability limit | : | No data available       |
| Lower explosion limit / Lower<br>flammability limit | : | No data available       |
| Vapor pressure                                      | : | 23 hpa                  |
| Relative vapor density                              | : | No data available       |
| Density   | : | ca. 1 g/cm3 (73 °F / 23 |
| Solubility(ies)<br>Water solubility                 | : | completely soluble      |
| Solubility in other solvents                        | : | No data available       |
| Partition coefficient: n-<br>octanol/water          | : | No data available       |
| Autoignition temperature                            | : | No data available       |
| Decomposition temperature                           | : | No data available       |
| Viscosity   |   |                         |
|   |   |                         |

°C)

Revision Date 11/25/2019

| Viscosity, dynamic                       | : No data available     |
|--|-------------------------|
| Viscosity, kinematic                     | : Not applicable        |
| Explosive properties                     | : No data available     |
| Oxidizing properties                     | : No data available     |
| Volatile organic compounds (VOC) content | : 0 g/l<br>A+B Combined |

# SECTION 10. STABILITY AND REACTIVITY

| Reactivity                              | : | No dangerous reaction known under conditions of normal use. |
|---|---|---|
| Chemical stability                      | : | The product is chemically stable.                           |
| Possibility of hazardous reac-<br>tions | : | Stable under recommended storage conditions.                |
| Conditions to avoid                     | : | No data available   |
| Incompatible materials                  | : | No data available   |
| Hazardous decomposition products        | : | No decomposition if stored and applied as directed.         |

## SECTION 11. TOXICOLOGICAL INFORMATION

Not classified based on available information.

#### Skin corrosion/irritation

Not classified based on available information.

#### Serious eye damage/eye irritation

Not classified based on available information.

#### Respiratory or skin sensitization

#### Skin sensitization

Not classified based on available information.

#### **Respiratory sensitization**

Not classified based on available information.

#### Germ cell mutagenicity

Not classified based on available information.

#### Carcinogenicity

Not classified based on available information. IARC Not applicable

**OSHA** Not applicable

**NTP** Not applicable

Revision Date 11/25/2019

**Reproductive toxicity** Not classified based on available information.

**STOT-single exposure** Not classified based on available information.

**STOT-repeated exposure** Not classified based on available information.

Aspiration toxicity Not classified based on available information.

# SECTION 12. ECOLOGICAL INFORMATION

| <b>Ecotoxicity</b><br>No data available                     |  |
|---|--|
| <b>Persistence and degradability</b><br>No data available   |  |
| <b>Bioaccumulative potential</b><br>No data available       |  |
| <b>Mobility in soil</b><br>No data available                |  |
| Other adverse effects                                       |  |
| <u>Product:</u><br>Additional ecological infor- :<br>mation | Do not empty into drains; dispose of this material and its con-<br>tainer in a safe way.<br>Avoid dispersal of spilled material and runoff and contact with<br>soil, waterways, drains and sewers. |

## SECTION 13. DISPOSAL CONSIDERATIONS

| <b>Disposal methods</b><br>Waste from residues | : | Disposal of this product, solutions and any by-products should<br>at all times comply with the requirements of environmental<br>protection and waste disposal legislation and any regional<br>local authority requirements. |
|--|---|---|
| Contaminated packaging                         | : | Empty containers should be taken to an approved waste han-<br>dling site for recycling or disposal.   |

## **SECTION 14. TRANSPORT INFORMATION**

#### International Regulations

**IATA-DGR** Not regulated as a dangerous good

Revision Date 11/25/2019

#### IMDG-Code

Not regulated as a dangerous good

#### **Domestic regulation**

#### 49 CFR

Not regulated as a dangerous good

## **SECTION 15. REGULATORY INFORMATION**

TSCA list

: All chemical substances in this product are either listed on the TSCA Inventory or are in compliance with a TSCA Inventory exemption.

#### EPCRA - Emergency Planning and Community Right-to-Know

## **CERCLA Reportable Quantity**

This material does not contain any components with a CERCLA RQ.

#### SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

## SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

| SARA 311/312 Hazards | : | No SARA Hazards   |
|----------------------|---|---|
| SARA 313             | : | This material does not contain any chemical components with<br>known CAS numbers that exceed the threshold (De Minimis)<br>reporting levels established by SARA Title III, Section 313. |

## Clean Air Act

This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112 (40 CFR 61).

California Prop 65

## Notes to Reader

The information contained in this Safety Data Sheet applies only to the actual Sika Corporation ("Sika") product identified and described herein. This information is not intended to address, nor does it address the use or application of the identified Sika product in combination with any other material, product or process. All of the information set forth herein is based on technical data regarding the identified product that Sika believes to be reliable as of the date hereof. Prior to each use of any Sika product, the user must always read and follow the warnings and instructions on

Revision Date 11/25/2019

the product's current Product Data Sheet, product label and Safety Data Sheet for each Sika product, which are available at web site and/or telephone number listed in Section 1 of this SDS.

SIKA MAKES NO WARRANTIES EXPRESS OR IMPLIED AND ASSUMES NO LIABILITY ARISING FROM THIS INFORMATION OR ITS USE. SIKA SHALL NOT BE LIABLE UNDER ANY LEGAL THEORY FOR SPECIAL OR CONSEQUENTIAL DAMAGES AND SHALL NOT BE RESPONSIBLE FOR THE USE OF THIS PRODUCT IN A MANNER TO INFRINGE ON ANY PATENT OR ANY OTHER INTELLECTUAL PROPERTY RIGHTS HELD BY OTHERS.

All sales of Sika products are subject to its current terms and conditions of sale available at www.sikausa.com or 201-933-8800.

# SECTION 4. FIRST AID MEASURES

| General advice          | : | Move out of dangerous area.<br>Consult a physician.<br>Show this material safety data sheet to the doctor in attend-<br>ance.  |
|-------------------------|---|--|
| If inhaled              | : | Move to fresh air.<br>Consult a physician after significant exposure.  |
| In case of skin contact | : | Take off contaminated clothing and shoes immediately.<br>Wash off with soap and plenty of water.<br>Immediate medical treatment is necessary as untreated<br>wounds from corrosion of the skin heal slowly and with difficul-<br>ty.                     |
| In case of eye contact  | : | Small amounts splashed into eyes can cause irreversible tis-<br>sue damage and blindness.<br>In the case of contact with eyes, rinse immediately with plenty<br>of water and seek medical advice.<br>Continue rinsing eyes during transport to hospital. |
| If swallowed            | : | Remove contact lenses.<br>Keep eye wide open while rinsing.<br>Clean mouth with water and drink afterwards plenty of water.<br>Do not induce vomiting without medical advice.<br>Do not give milk or alcoholic beverages.                                |

Revision Date 01/21/2020

| Most important symptoms<br>and effects, both acute and<br>delayed | : | Never give anything by mouth to an unconscious person.<br>Take victim immediately to hospital.<br>Prolonged exposure can cause silicosis.<br>Health injuries may be delayed.<br>corrosive effects<br>irritant effects<br>sensitizing effects<br>Asthmatic appearance<br>Cough<br>Respiratory disorder<br>Allergic reactions<br>Dermatitis<br>May cause an allergic skin reaction.<br>Causes serious eye damage.<br>May cause allergy or asthma symptoms or breathing difficul-<br>ties if inhaled.<br>May cause respiratory irritation.<br>May cause respiratory irritation.<br>Causes damage to organs through prolonged or repeated<br>exposure.<br>Causes severe burns. |
|---|---|--|
| Notes to physician  | • | Treat symptomatically.   |

# **SECTION 5. FIRE-FIGHTING MEASURES**

| Suitable extinguishing media                   | : | Use extinguishing measures that are appropriate to local cir-<br>cumstances and the surrounding environment.  |
|--|---|---|
| Further information                            | : | Collect contaminated fire extinguishing water separately. This must not be discharged into drains.<br>Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |
| Special protective equipment for fire-fighters |   |   |

#### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

| Personal precautions, protec-<br>tive equipment and emer-<br>gency procedures | : | Use personal protective equipment.<br>Avoid breathing dust.<br>Deny access to unprotected persons.  |
|---|---|---|
| Environmental precautions   | : | Do not flush into surface water or sanitary sewer system.<br>If the product contaminates rivers and lakes or drains inform<br>respective authorities.<br>Local authorities should be advised if significant spillages<br>cannot be contained. |

# SECTION 11. TOXICOLOGICAL INFORMATION Acute toxicity Not classified based on available information. **Components:** calcium sulfate: Acute oral toxicity : LD50 Oral (Rat): > 5,000 mg/kg carbon black: Acute oral toxicity 1 LD50 Oral (Rat): > 8,000 mg/kg Skin corrosion/irritation Causes severe burns. Serious eye damage/eye irritation Causes serious eye damage. Respiratory or skin sensitization Skin sensitization May cause an allergic skin reaction. **Respiratory sensitization** May cause allergy or asthma symptoms or breathing difficulties if inhaled. Germ cell mutagenicity Not classified based on available information. Carcinogenicity May cause cancer by inhalation. IARC Group 1: Carcinogenic to humans Quartz (SiO2) (Silica dust, crystalline) Group 2B: Possibly carcinogenic to humans Carbon black **OSHA** OSHA specifically regulated carcinogen Quartz (SiO2) (crystalline silica)

NTPKnown to be human carcinogen<br/>Quartz (SiO2)14808-60-7<br/>(Silica, Crystalline (Respirable Size))

## **Reproductive toxicity**

Not classified based on available information.

## STOT-single exposure

May cause respiratory irritation.

14808-60-7

1333-86-4

14808-60-7

#### STOT-repeated exposure

Causes damage to organs (Lungs) through prolonged or repeated exposure. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. Prolonged exposure can cause silicosis.

#### **Aspiration toxicity**

Not classified based on available information.

#### **Further information**

#### Product:

Remarks

: Carbon black (1333-86-4) <u>Animal Toxicity:</u> Rat, oral, duration 2 year Effect: no tumors

> Mouse, oral, duration 2 years Effect: no tumors Mouse, dermal, duration 18 months Effect: no skin tumors Rat, inhalation, duration 2 years Target organ: lungs Effect: inflammation, fibrosis, tumors Note: Tumors in the rat lung are considered to be related to the "particle overload phenomenon" rather than to a specific chemical effect of carbon black itself in the lung. These effects in rats have been reported in many studies on other poorly soluble inorganic particles and appear to be rat specific. Tumors have not been observed in other species (i.e., mouse and hamster) for carbon black or other poorly soluble particles under similar circumstances and study conditions. Mortality studies (human data): A study on carbon black production workers in the UK (Sorahan, 2001) found an increased risk of lung cancer in two of the five plant studied; however, the increase was not related to the dose of carbon black. Thus, the authors did not consider the increased risk in lung cancer to be due to carbon black exposure. A German study of carbon black workers at one plant (Morfeld, 2006; Buechte, 2006) found a similar increase in lung cancer risk but, like the Sorohan, 2001 (UK study) found no association with carbon black exposure. A large US study of 18 plants showed a reduction in lung cancer risk in carbon black production workers (DEII, 2006). Based upon these studies, the February 2006 Working Group at the International Agency for Research on Cancer (IARC) concluded that the human evidence for carcinogenicity was inadequate (IARC, 2010). Since the IARC evaluation of carbon black, Sorahan and Harrington (2007) have re-analyzed the UK study data using an alternative exposure hypothesis and found a positive association with carbon black exposure in two of the five plants. The same exposure hypothesis was applied by Morfeld and McCunney (2009) to the German cohort; in contrast, they found no association between carbon black exposure and lung cancer risk and, thus, no support for the alternative expo-

Revision Date 01/21/2020

sure hypothesis used by Sorahan and Harrington. Overall, as a result of these detailed investigations, no causative link between carbon black exposure and cancer risk in humans has been demonstrated.

IARC CANCER CLASSIFICATION: In 2006 IARC re-affirmed its 1995 finding that there is "inadequate evidence" from human health studies to assess whether carbon black causes cancer in humans. IARC concluded that there is "sufficient evidence" in experimental animal studies for the carcinogenicity of carbon black. IARC's overall evaluation is that carbon black is "possibly carcinogenic to humans" (Group 2B)". This conclusion was based on IARC's guidelines, which generally require such a classification if one species exhibits carcinogenicity in two or more animal studies (IARC, 2010).

Solvent extracts of carbon black were used in one study of rats in which skin tumors were found after dermal application and several studies of mice in which sarcomas were found following subcutaneous injection. IARC concluded that there was "sufficient evidence" that carbon black extracts can cause cancer in animals (Group 2B).

**ICGIH CANCER CLASSIFICATION:** Confirmed Animal Carcinogen with Unknown Relevance to Humans (Category A3 Carcinogen).

**ASSESSMENT:** Applying the guidelines of self-classification under the Globally Harmonized System of Classification and Labeling of Chemicals, carbon black is not classified as a carcinogen. Lung tumors are induced in rats as a result of repeated exposure to inert, poorly soluble particles like carbon black and other poorly soluble particles. Rats tumors are a result of a secondary non-genotoxic mechanism that has questionable relevance for classification in humans. In support of this opinion, the CLP Guidance for Specific Target Organ Toxicity - Repeated Exposure (STOT-RE), cites lung overload under mechanisms not relevant to humans. Human health studies show that exposure to carbon black does not increase the risk to carcinogenicity.

Quartz (14808-60-7): This classification is relevant when exposed to Quartz (silicon dioxide) in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.
