INSTALLATION INSTRUCTION OF DROP IN KITCHEN SINK

IMPORTANT:

1. We strongly recommend that the product be installed by A licensed plumber.
2. We recommend at least two people to lift or mount the sink .

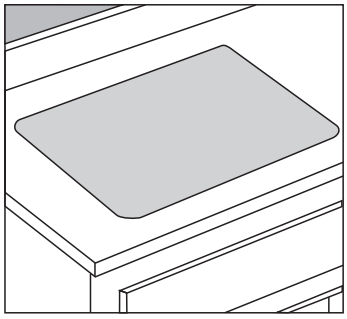
TOOLS NEEDED:

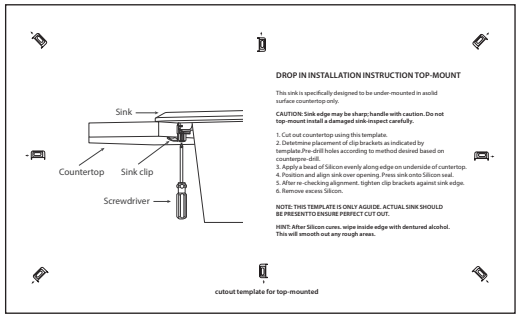
Safety glasses/silicone adhesive sealant/tape measure/Jigsaw/rags/ wood braces/evel/screws/bladed screwdriver

INSTALLATION STEPS:

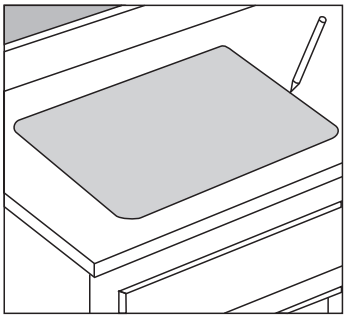
Step1: Position the Template in the desired location on the countertop.

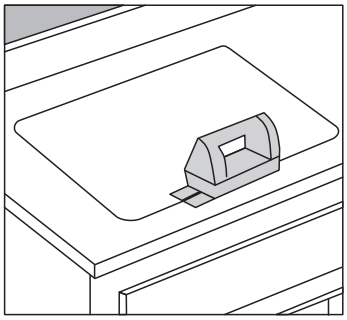
(Please put the cutout template against the sink and confirm it is suitable. If not,please contact after-sale service)





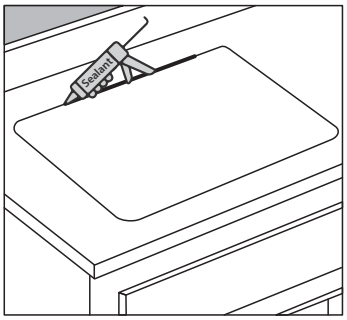
Step2: Trace the Template on countertop with a pencil and Cut the Countertop Accordingly.

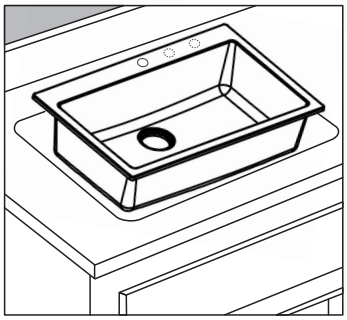




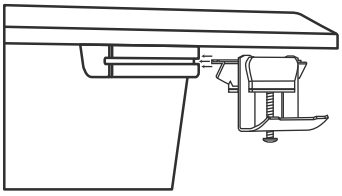
Step3: Fix the Sink to Countertop.

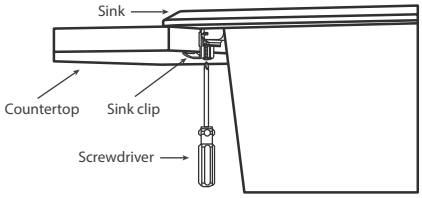
1. Put some silicone-based adhesive along the edge of the hole.
2. Insert the sink into the opening, confirm it fits the countertop opening , and press firmly.



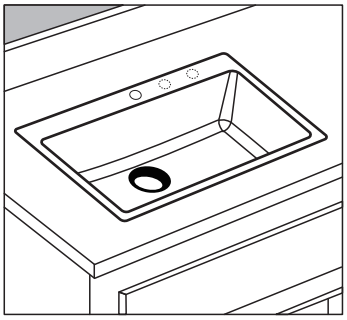


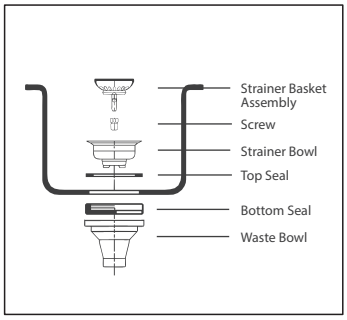
3. Tighten the Clips with the sink.





4. Remove excess silicone-based adhesive and allow the sealant to settle for 30-60 minutes.





Step4: Install Plumbing Fixtures

Connect the drain to the sink. Connect the trap to the drain. Connect the watersupply connections to the faucet according to manufacturer's instructions.
Drain water into the sink and check for leaks.

FINISH THE INSTALLATION

MAINTENANCEIN STRUCTIONS

MAINTENANCEIN STRUCTIONS
