

## *Van Zyverden's* **EUCOMIS BICOLOR**

Pineapple lilies are miniature floral representations of the tropical fruit. The flower is formed by a spike of masses of little flowers or florets topped with a tuft of green. The foliage is large, broad, and wavy edged. The flower is fragrant, tropical looking and is a unique garden specimen. They are exceptional cut flowers, and the stems stay fresh for weeks. You and your neighbors will not be disappointed!

*Great for larger containers*

*Welcome plant*

*Better known as  
the Pineapple Lily*

*About This Variety:* This species boasts maroon-speckled stems and green flowers with maroon margins.

*Growing Instructions:* Don't let the exotic looks fool you as they are VERY easy to grow. Be sure they receive enough sunlight as too much shade will reduce flowering. Best to plant once soil has warmed.

*Care Tip:* Water regularly, well and avoid letting the soil dry out. They are tender and easily damaged by cold temperatures.

*Exposure:* Sun to partial shade

*Height:* 8-12"

*Spacing:* Plant- 18" apart, 1" deep

*Hardy in:* USDA zones 7-10

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
