

Completing your flooring project?

We make it simple.

4-in-1 Transition

One simple moulding works four ways, saving you time and money.

1

T-Moulding

Connects two floors of equal height.

2

Hard Surface Reducer

Connects two hard surface floors of different heights.

3

Carpet Transition

Transitions between hard surface floor and carpet.

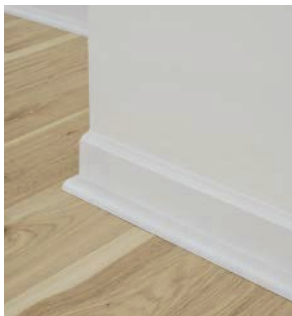

4

End Moulding

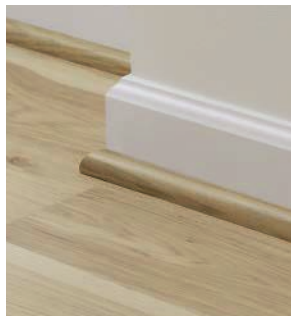

Finishes a hard surface floor against fireplaces, sliding doors, and more.

More finishing solutions.

WetProtect® Quarter Round

Creates a waterproof perimeter for waterproof and water-resistant flooring.

Quarter Round

Conceals the expansion gap between the wall and wallbase and floor.

Online only

Wall Base

Available in coordinating colors, prefinished white.

Online only

Stair Nose

Finishes the stair edge.
