Caution

This product contains chemicals known to the State of California to cause cancer, birth defects and/or other reproductive harm. Thoroughly wash hands after installing, handling, cleaning, or otherwise touching this product.

If in doubt about electrical installation, consult a licensed electrician

All electrical connections must be made in accordance with local and National Electrical Code (NEC) standards.

If you are unfamiliar with proper electrical wiring connections, obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions. Tools are required when installing this fixture.

Steps to Install

1. Before installation, turn off the power at fuse or circuit breaker.
2. Carefully unpack and identify all parts.
3. Using the **adapter (A)** as a guide, lay out location of the 9/32 inch diameter anchor holes and position of conduit power feed (*not included*).
4. Install conduit power feed through pedestal (*not included*) so it protrudes at least one inch above top surface of pedestal.
5. Set **anchors (C)** into anchor holes.
6. Set **adapter (A)** onto pedestal with holes aligned with **anchors (C)**. Secure **adapter (A)** to pedestal with **screws (B)** provided. Caulk around base of **adapter (A)** to prevent water from entering.
7. Install fixture according to instructions furnished with fixture threading power wires through conduit power feed.
8. Connect supply cable to power source according to NEC and UL requirements.
9. After installation, turn on the power at fuse or circuit breaker.
