OVERVIEW

EnviroLite LED strip lights are the perfect solution for commercial lighting needs. These light fixtures are designed to save energy and lower maintenance costs. The LED light source uses 30% less power to produce the same amount of light as fluorescent light bulbs, and it's maintenance free. Because it's LED, you will never hear the hum that fluorescent fixtures make. EnviroLite uses quality LED chips that last for 50,000 hours of continuous use. The fixture comes with a 5 year warranty, is UL listed and can be installed in damp locations.
