

RAINBEAN BEAUTY Moisturizing Hair Dryer is Your Best Choice

- *Red Dot Design Award -Oscar in Design Community*
- *Innovative Independent Three-layer Water Moisturizing Air*
- *NTC Intelligent Temperature Control Sensor -Sense the Temperature Change at the Air Inlet*
- *Automatically Adjust the Blowing Time of the Cold and Hot Air - Better Tighten the Scales*
- *Output Tens of Millions of Tigh-Concentration Negative Ions, Neutralize Static Electricity, Reduce Frizz, and Make Hair Softer.*

Hair science

The damaged hair

The healthy hair

A circular inset shows a close-up of hair scales, with a line pointing to the 'The healthy hair' image.

Water Moisturizing Technology

for Beautiful Results

A background image showing a close-up of water spray or droplets, emphasizing the moisturizing technology.

- Damaged hair moisture is absorbed quickly, causing the scalp to absorb water and swell, leaving the hair vulnerable to breakage
- Protecting Your hair is more important than repairing it
- RAINBEAN BEAUTY Water Moisturizing Hair Dryer Blow out High Concentration Water Ion to Reduce Static and Make Silky Hair

WATER ION PATENT ECHNOLOGY

CONDENSE AIR TO BE WATER FILM AND USING NEEDLE OF ELECTRICITY TO EXERT HIGH VOLTAGE ON WATER FILM TO COMPLETE ATOMIZATION PROCESS. FINALLY GENERATE WATER ION WITH NEGATIVE ION TO REDUSE STATIC AND MAKE SILKY HAIR

A diagram illustrating the water ion patent technology. It shows a central vertical tube with a needle-like tip at the bottom. A blue electrical spark is shown at the tip, and a spray of blue particles (representing water ions) is emitted upwards from the tube. The entire setup is housed within a dark, angular, futuristic-looking structure.

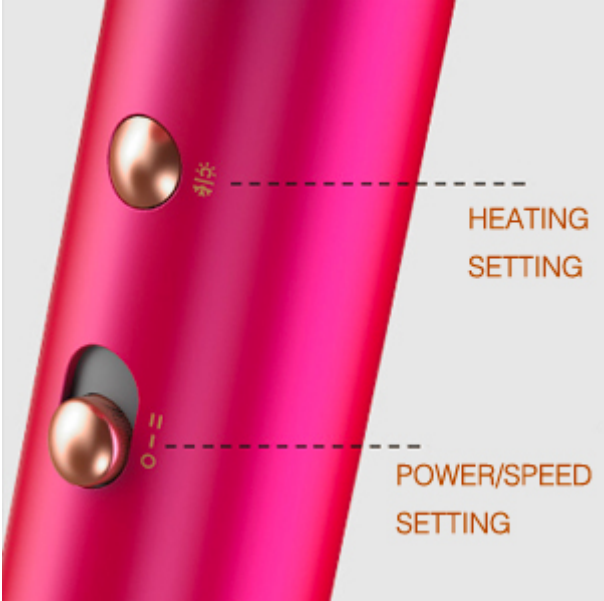

WATER ION PATENT ECHNOLOGY

Condense Air to Water Film and Using Needle of Electricity to Exert High Voltage on Water Film to Complete Atomization Process, Finally Generate water ion with Negative Ion to Reduce Static and Make silky Hair

COMFORTABLE & SAFE

- Insulated Outer Layer- Don't worry about scalding
- 360° Free Rotatable & Anti-Scalding Design-Don't Worry about Slipping

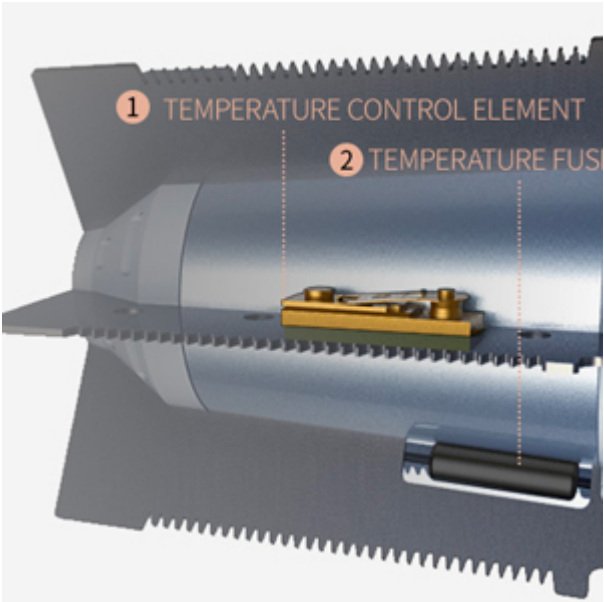

3 LEVELS HEATING & 2 LEVELS SPEED

- Slide + Touch Control
- Air Temperature Touch Switch -Cold Wind , Hot Wind , Hot &Cold Circulating wind

INTELLEGENT COLD&HOT PHYTHM MODE

- Intelligent Alternating Circulation of Hot and Cold Air
- Different color display

DUAL LOOP OVERHEATING PROTECTION

- Over Heat Protection Auto Power Off
- In Extreimity Fuse Protection

INLET PREVENT HAIR INVOLVEMENT

- Metal Texture Display Style

ELEGANT PACKAGING

- Best Choice of Gift
- Lighter than traditional hair dryer, Reducing the burden on the shoulder when using
