

OY173-3 Installation Instructions

Please Scan the QR code to watch the installation video. If you have any questions, please feel free to contact us through the order page.

Black wire (or brown wire):
connect to the live wire (L).

White wire (or blue wire):
connect to the neutral wire (N).

Installation Steps:

Before installation: Open the packaging, locate all the accessories, and place them on a clean surface to prevent wear and damage to the lamp body.

1. Secure the mounting bracket to the ceiling using the screws provided in the kit.
2. Thread the wires through the holes on the canopy and secure them tightly with the locking buckles.
3. Connect the lamp wire to the power wire using wiring caps. Wrap the wire caps with electrical tape to prevent electric leakage.
5. Attach the lampshades to the bulb bases and secure them with the locking ring on the bulb bases.
6. Install the light bulbs.

Warning!

1. Installation should be performed by a professional.
2. To prevent electric shock, please turn off the power before installing, repairing, or cleaning the light fixture.
3. This light fixture operates within a 110V to 265V range only.
4. Do not install the light fixture in damp conditions.
5. Keep the light fixture away from acidic and corrosive materials.
6. Due to creasing from packaging, the suspension wires of the pendant light require two weeks to gradually straighten after installation.
