PRODUCT CARE

- Wipe faucet with damp cloth and mild household cleanser.
- Dry with soft cloth to maintain original appearance.
- Remove hard water stains with 50/50 solution vinegar and water.
- If mineral deposits are too hard to remove, specially in the aerator, unscrew aerator by hand or with tool provided with faucet, soak aerator in 50/50 vinegar and water solution for several hours, rub your fingers and use a tooth brush to remove mineral deposits, place aerator back into original position.
