

DOMINION FRUCETS

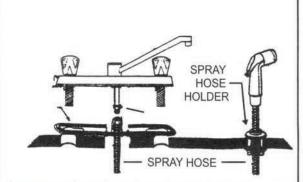

Installation Instructions Two Handle Kitchen Faucet

STEP1

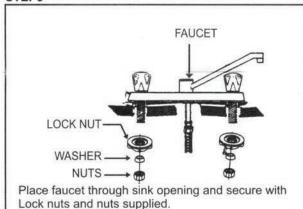

Separate locknut from sprayhead holder and insert sprayhead holder through sink. Reassemble and tighten locknut.

STEP2

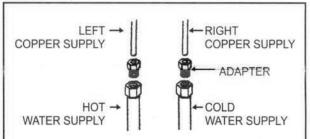

Insert spray hose from above through holder then up through center hole in sink and thread through plastic gasket. Attach spray hose to faucet fitting and tighten.

STEP3

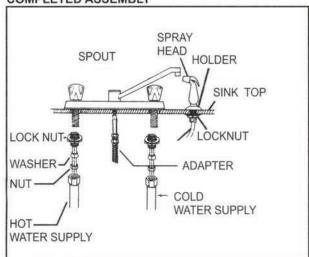

STEP4

Carefully bend the copper supplies to meet the supply lines. Use the palms of your hands to bend, so as to avoid kinking.

Connect the hot water supply to the left tube and the cold water supply to the right tube.

COMPLETED ASSEMBLY

NOTES

- A. Remove aerator before turning on the water.
- B. Turn on the water to flush the lines and check for leaks.
- C. Replace the aerator.
