

# Whale Fin Snake Plant Sansevieria

## Sunlight

Medium-low to bright indirect light.

## Water

Let top 1 - 2" of soil dry out between waterings. Do not let plant sit in water.

## Pet Friendly

Can be mildly toxic if ingested

## Mature Size

Height: 24-48"  
Width: 12-24"

## Air Purification

Excellent – removes multiple airborne toxins

## Plant Hardiness

Outdoor: Zones 10-12  
Indoor: ANY ZONE

## Indoor Care Tips

Use a cactus mix or African Violet mix with added sand. A well draining pot is needed.

## Outdoor Care Tips

- Plant in well-draining area; in-ground or a planter
- Bring indoors when temp goes below 55° F

## Expert Advice

- Average humidity
- Very easy to grow
- Very hardy
