## Signature Features

### 52 Wine Bottle Storage Capacity

The first layer of the wine cooler is reserved for large layer spacing, and it is equipped with 5 removable premium metal wire wooden shelves that slide smoothly and are sturdy enough to hold your bottles without scratches. So you can easily position wine bottles of different shapes and sizes.

### Upgraded Cooling System

Yeego wine refrigerator runs with quiet operation (≤41dB) and rapid cooling, and it is equipped with an upgraded compressor and front grille air outlet design which can provide excellent heat dissipation function to maintain a steady temperature and stable chiller effect.

### Freestanding or Built-in Installation

Thanks to the sleek stainless steel grille air outlet design, you don't need to leave a lot of space for heat exhaust under your counter. So you can choose to install it as a built-in or freestanding installation, depending on your preference!

### Thoughtful Design

Yeego provides sincere and effective design like reversible door design allows a flexible choice of the direction of the door, Leveling legs can adjust feet and keep level placement anywhere. Two true key locks to prevent the door from being accidentally opened.

## Note:

- Before connecting the wine fridge to the power source for the first time, please keep it upright at least 24-36 hours. It will reduce the possibility of a malfunction in the cooling system from handling during transportation. It is suggested to put the wine fridge in a cool and ventilated place, which will greatly improve the cooling performance.
