Installation Instructions

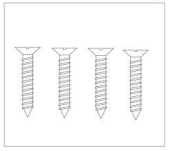

Parts List

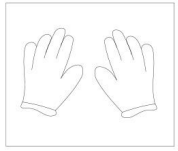

wire connector

Plastic wall plug

screw

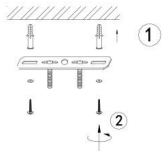

glove

1

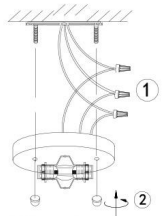

turn off the power

2

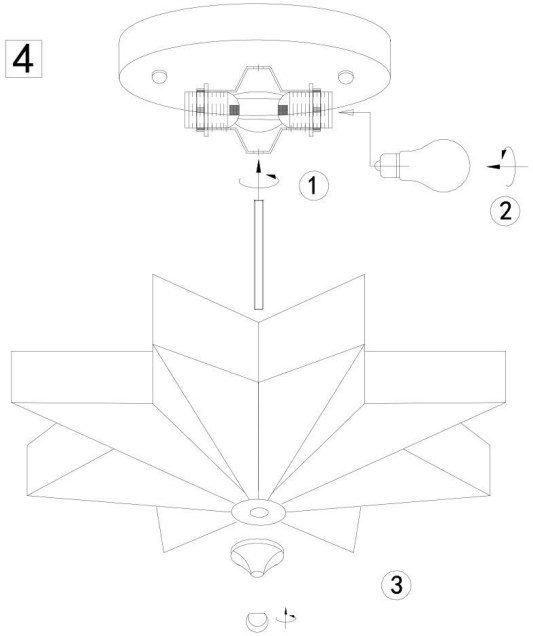

Adjust the position of the hanging plate screws and the holes in the ceiling, and install the hanging plate on the ceiling;

3

Connect the wires properly and fix the ceiling plate to the ceiling with flower branch hardware.

4

1. Screw the long lead screw into the ceiling mount plate
2. Screw in bulb
3. Install the lampshade and secure the end with a decorative nut.
4. switch on the power supply and confirm that the lamp is functioning correctly.

Key point: The rattling noise from the glass is not an assembly, craftsmanship, or quality issue, but is due to the intentional space left to accommodate thermal expansion contraction.
