## The right kind of **WATERPROOF.** **GUARANTEED.**

Did you know that a floor can be “waterproof” even if it doesn’t protect your subfloor?

In fact, many waterproof floors only protect the surface of your floor, leaving your subfloor vulnerable to any water that leaks through.

Now, there’s WetProtect®, a waterproof system that holds nothing back — so you can live boldly on your Pergo® floors without worrying about causing damage underneath. With water-tight joints that prevent subfloor damage, a waterproof finish that traps spills and splashes on the surface, and a waterproof quarter round molding, WetProtect is full-coverage waterproofing that is not only backed by a lifetime waterproof warranty\* — it’s the only waterproof flooring system that comes with a **lifetime surface and subfloor warranty!**

**WITH WETPROTECT SUBFLOOR PROTECTION**  
A waterproof finish and watertight locking joints keep liquids on the surface so they won’t damage the subfloor.

**WITHOUT SUBFLOOR PROTECTION**  
Many waterproof floors only protect the surface of your floor, leaving your subfloor vulnerable to any water that leaks through gaps in the floor causing mold, mildew or subfloor damage.

**Lifetime Surface & Subfloor**  
**WATERPROOF WARRANTY**
