**YARROW FRAGRANT TERRACOTTA BLEND FOR A POLLINATOR FRIENDLY GARDEN**

Yarrow, botanically known as *Achillea*, is a very easy to grow perennial. They are resistant to deer, tolerant of heat, drought and wind and grow in nearly any soil type and almost desert like gardens. Use as garden plant, cut flower and/or in dried flower arrangements. Best of all they bloom for a very long time, summer to fall, and attract many butterflies and other pollinators to the garden. Fragrant. They can be left alone, requiring little to no care after they get established.

*Attracts butterflies*

*Long blooming*

*Showy, fragrant and eye-catching*

*About This Variety:* A high value, very versatile and rewarding perennial, available in a beautiful blend which is complimentary in height, color and blooming time. Plant them once for years of eye-catching flowers.

*Growing Instructions:* Plants do well in average garden soils and tolerate poor soils as long as drainage is good.

*Care Tip:* The plants require little maintenance as long as they are planted properly and establish themselves.

*Exposure:* Full sun

*Height:* Grows 24-36" tall

*Spacing:* Plant 24-36" apart, 1.5-2" deep

*Hardy in:* USDA zones 3-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
