

California Proposition 65:

This regulation, also known as the California Safe Drinking Water and Toxic Enforcement Act of 1986, requires labeling on products containing any of the chemicals recognized by California to cause cancer, birth defects or other reproductive harm.

Seller warrants it complies with California's Proposition 65. Seller of finished products, whether supplied in retail or bulk packaging, shall be solely responsible to determine if the product contains a listed chemical (see <https://oehha.ca.gov/proposition-65/proposition-65-list>) and, if so, label the product or its retail packaging with the warning as required. Seller of materials and component parts shall notify Buyer within two (2) business days of the acceptance of the purchase order if the material or component contains a listed chemical, so Buyer can comply with California Proposition 65. Seller agrees to defend, indemnify and hold Buyer harmless from and against all loss, damage, liability, fees, cost and/or expense whatsoever including reasonable legal fees and expenses, direct, special, incidental and consequential damages arising out of or relating to any California Proposition 65 violations. For additional information about California Proposition 65 see <http://www.oehha.ca.gov/prop65.html>.
