

## Kandi Kruiser 4P Running Board Installation

### Note:

You may need to install the optional brackets if your golf cart does not come with running board ready frame.

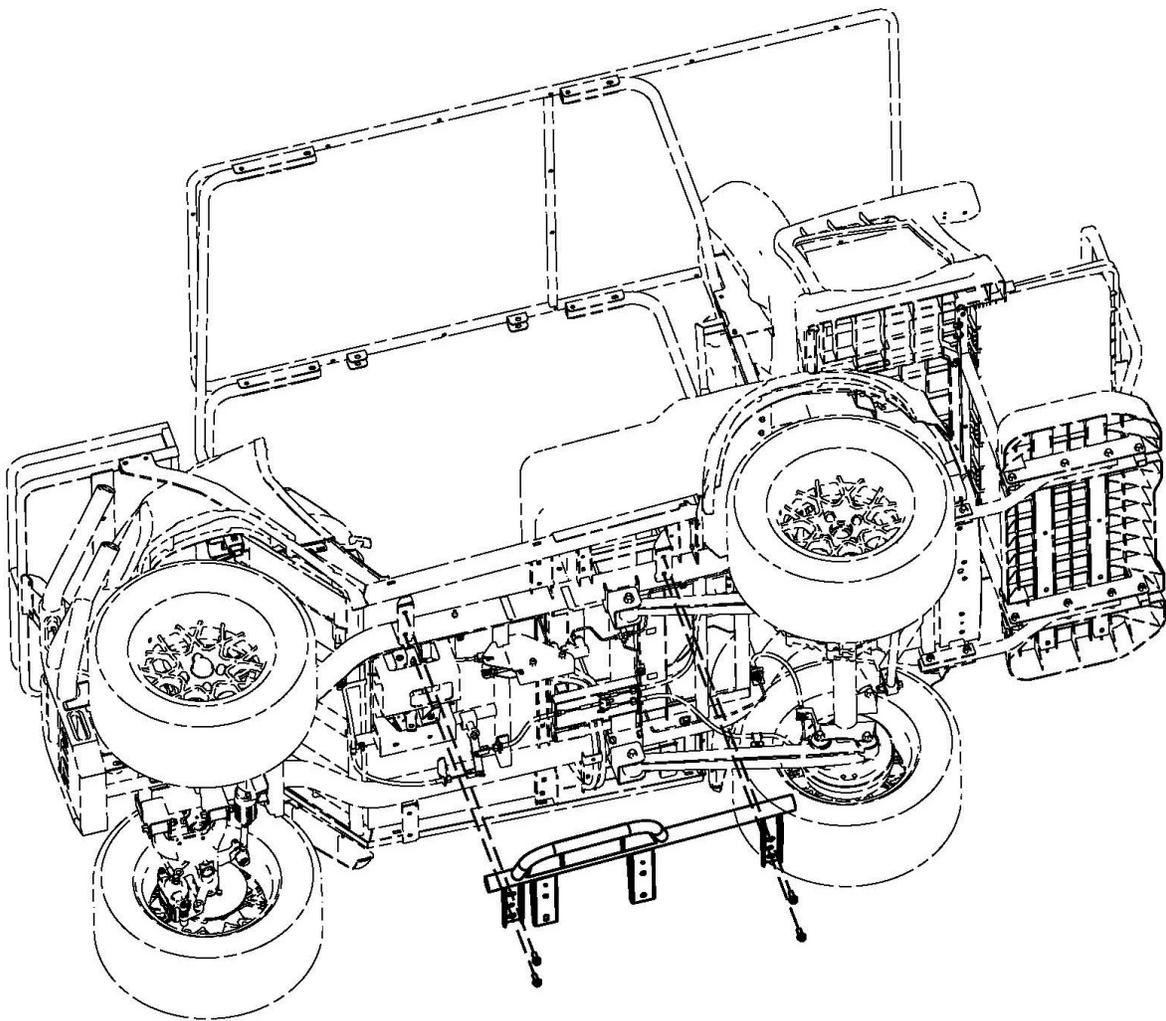

Please email Kandi America at [support@kandiamerica.com](mailto:support@kandiamerica.com) with your order number and we will send you a set of optional brackets at no charge.

## Installation With Running Board Ready Frame

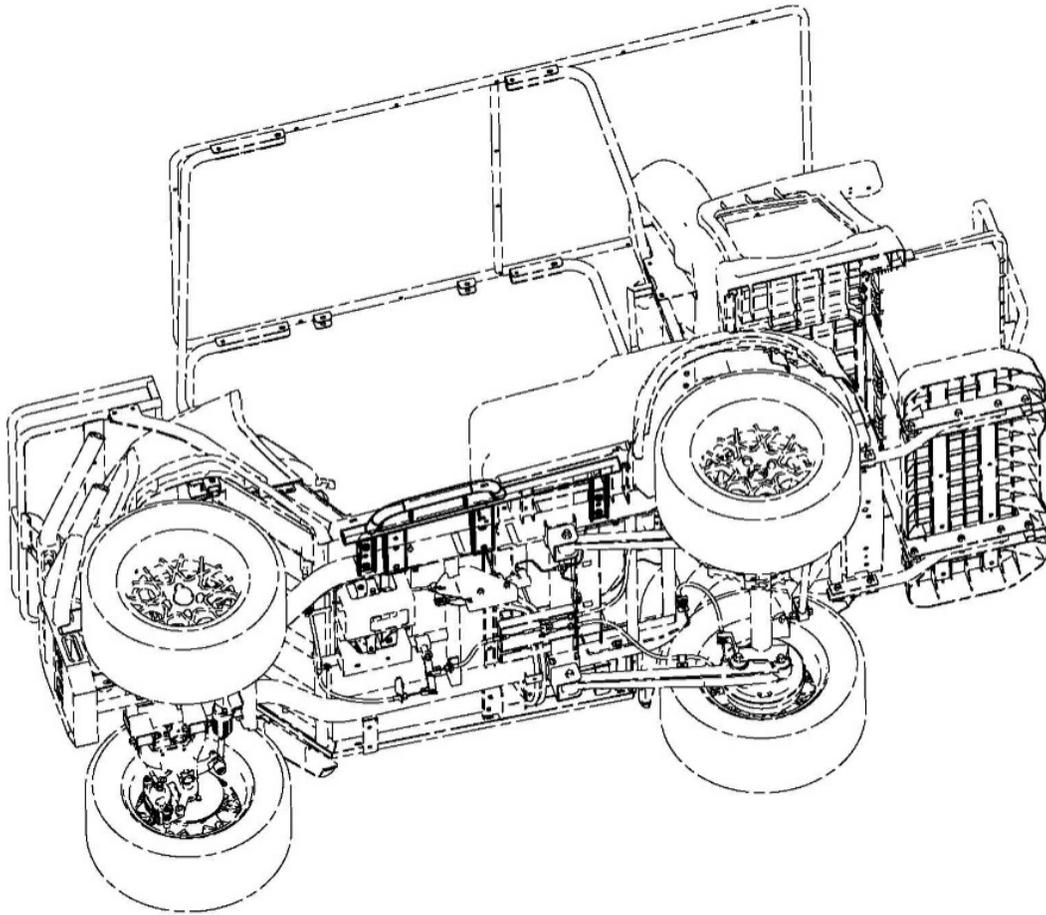

### Step 1:

Locate the 4 mounting holes on each side underneath the golf cart. Position the running board and carefully tighten the 4 bolts on each side.

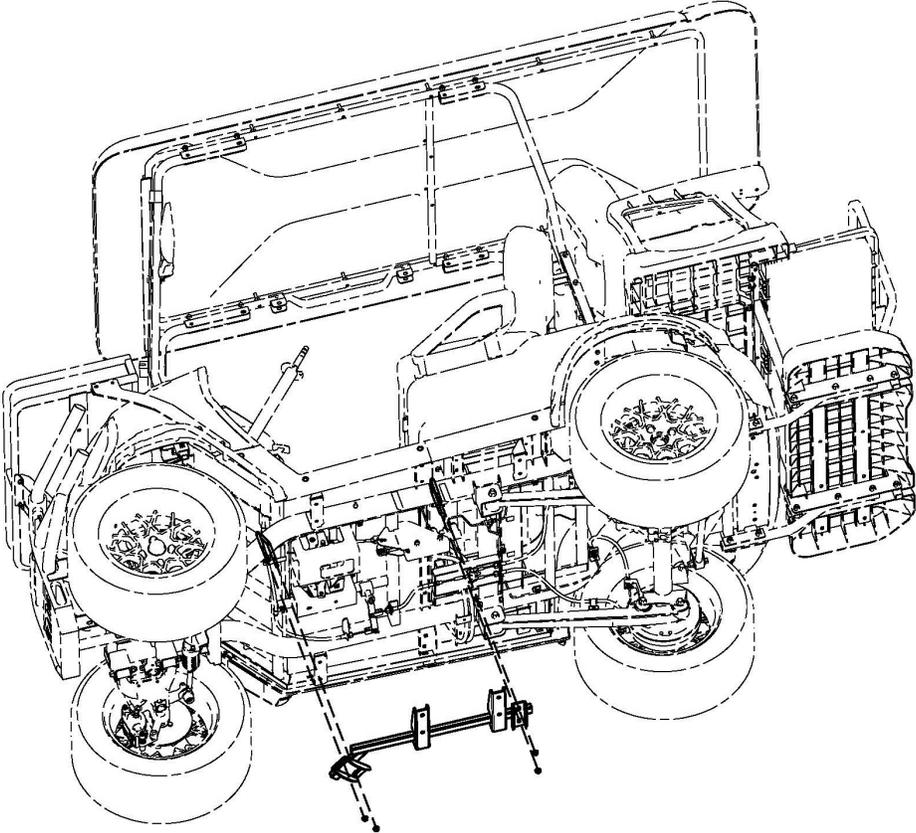

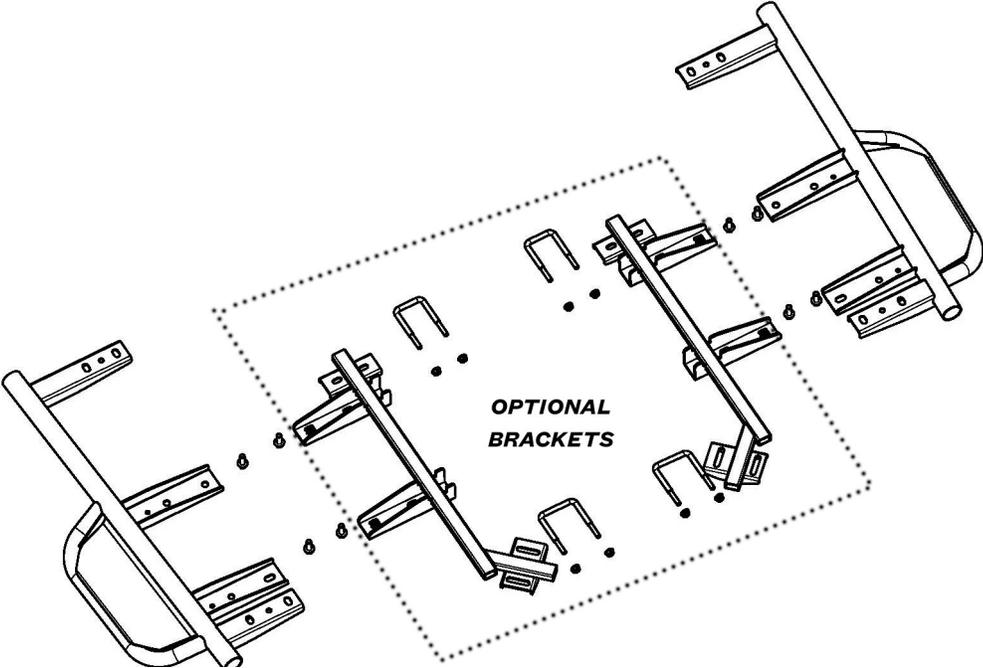

Step 2:

Make sure the running boards are installed securely. The installation should be completed as below.

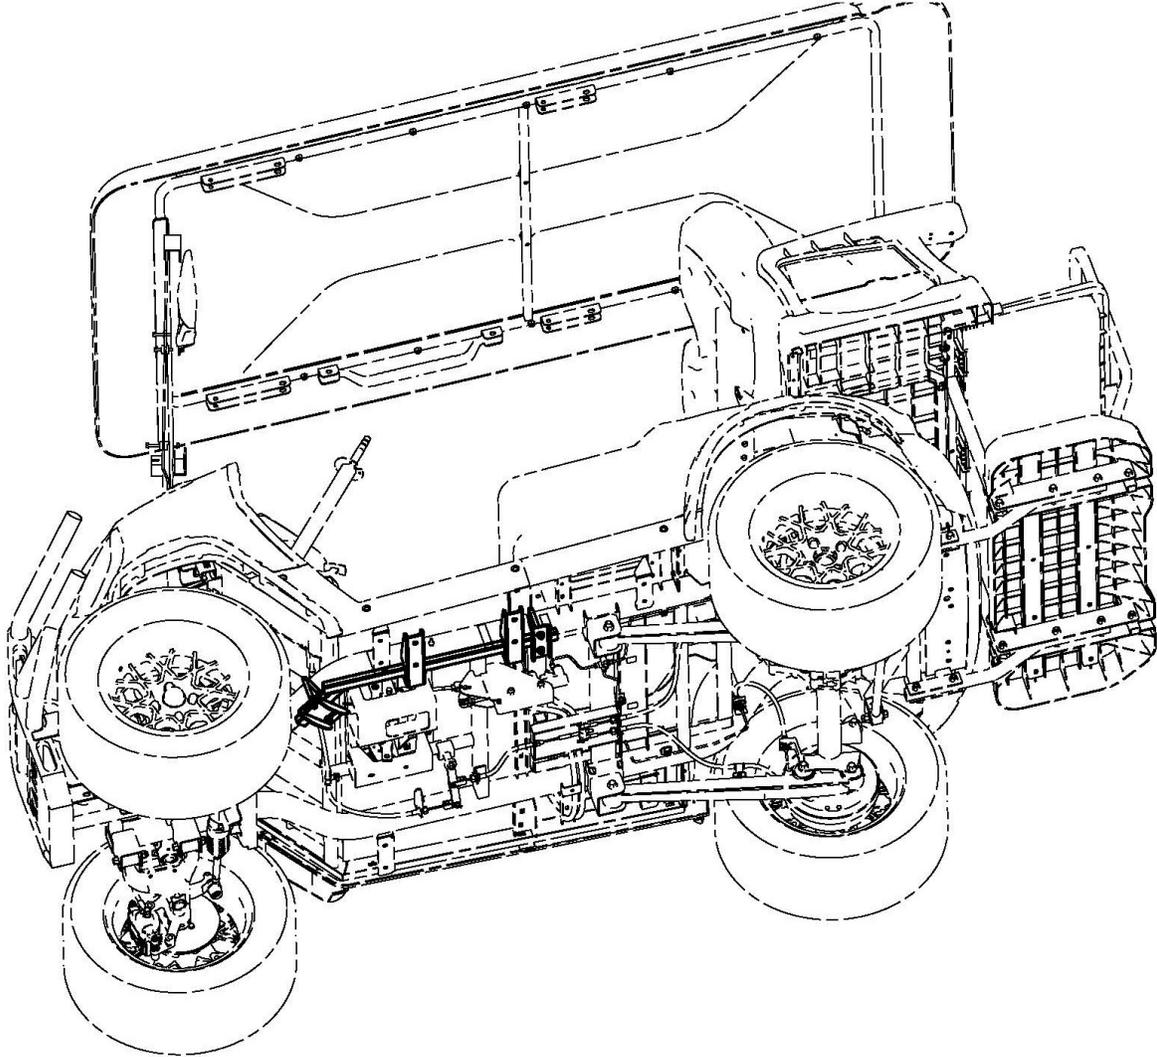

# Installation Without Running Board Ready Frame

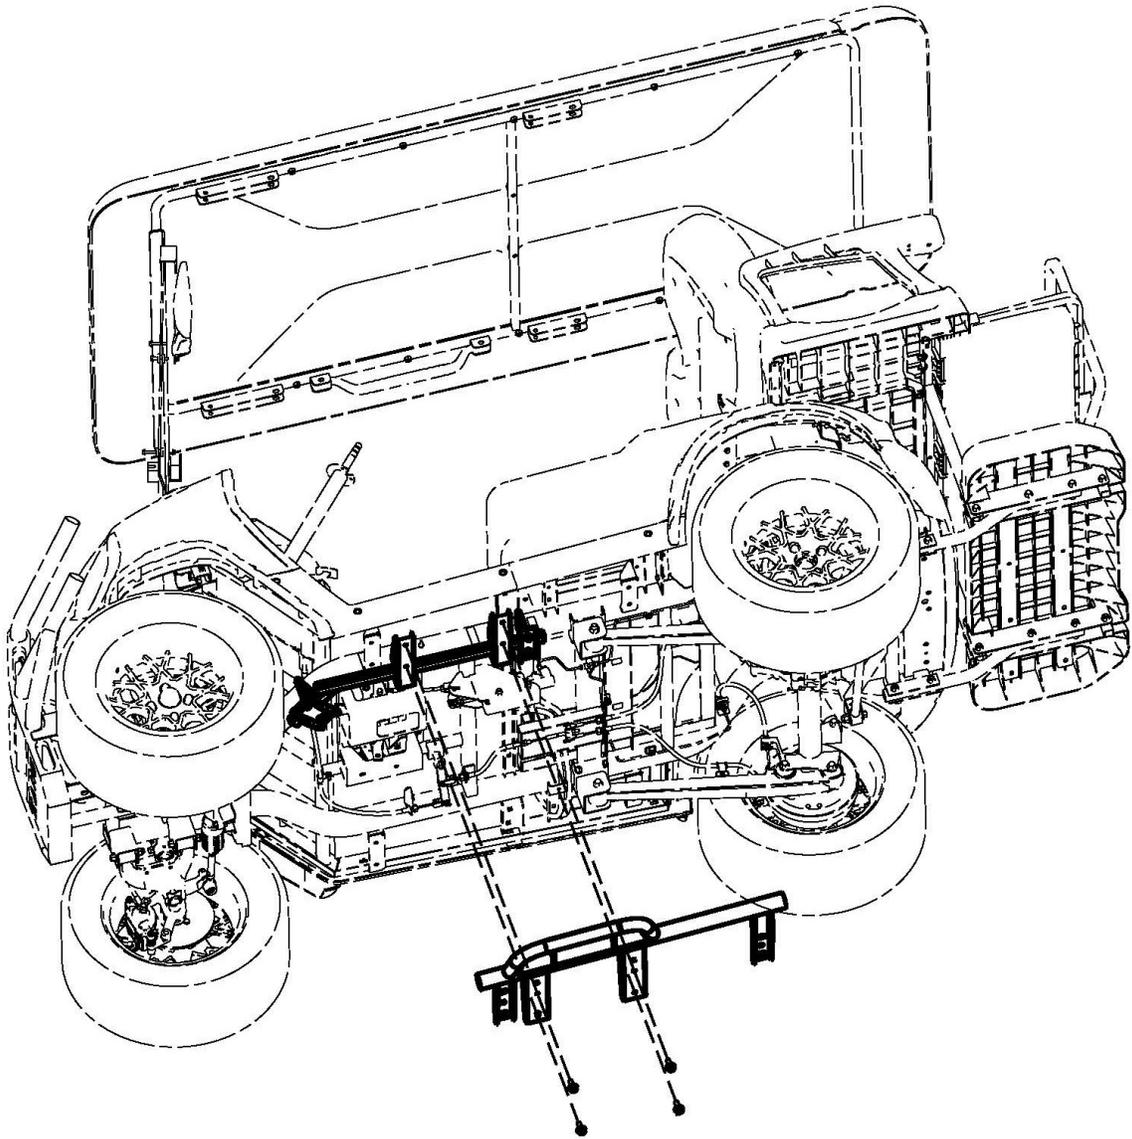

Step 1:  
Install the optional bracket as illustrated below.

The optional bracket should be installed as illustrated below.

Step 2:  
Position the running board to the optional bracket as  
illustrated below.

**Step 3:**

Make sure the running boards are installed securely. The installation should be completed as below.
